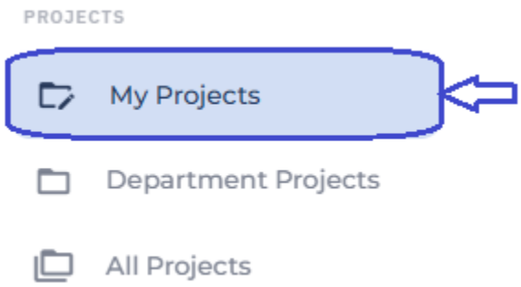
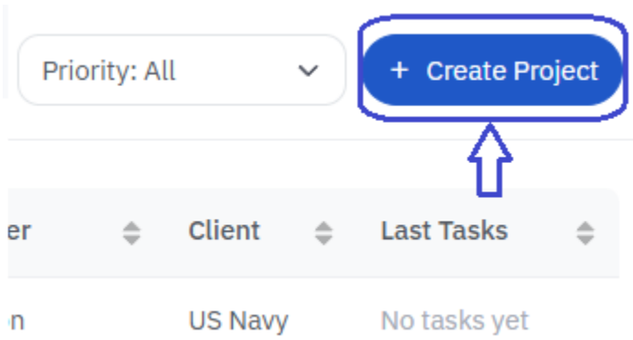
ASHGARD ToDo App User Guide

I. Create a Project

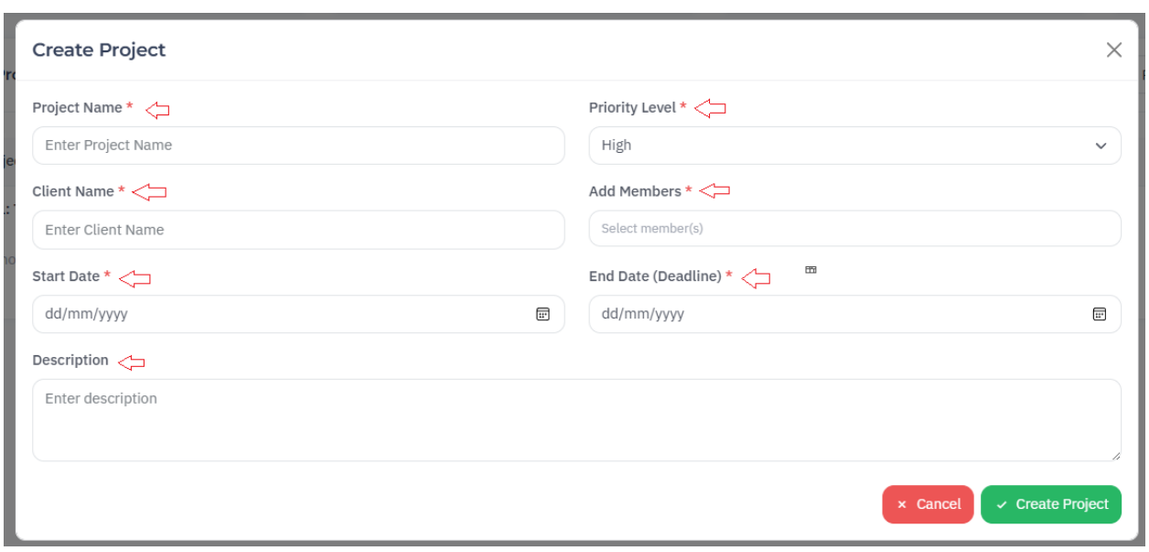
1. Go to the “**My Projects”** tab in the side bar.



2. Click the blue rounded button above last task column with its labeled "**+ Create Project**" located on the right side of the screen.



3. Now this form will show up and fill up **Project Name**, **Priority Level**, **Client Name**, **Add Members**, **Start Date**, **End Date**, and **Description.**



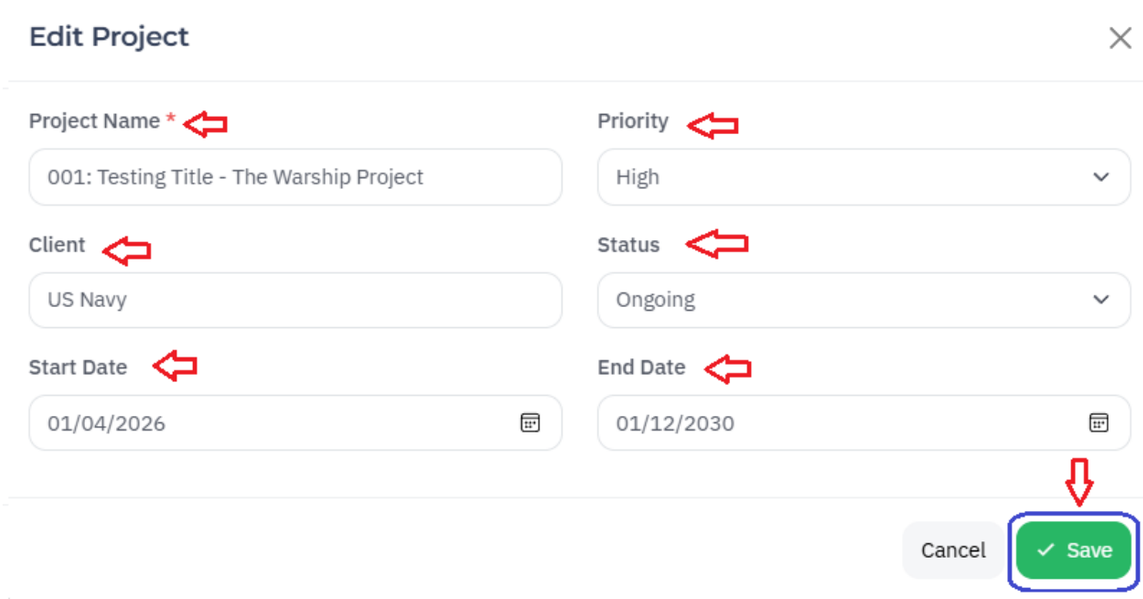
4. Then Select “**Create Project**”.

II. Edit Project Details

1. Locate the "**three-dot icon (⋮)"** in the upper right-hand corner of the task details card.

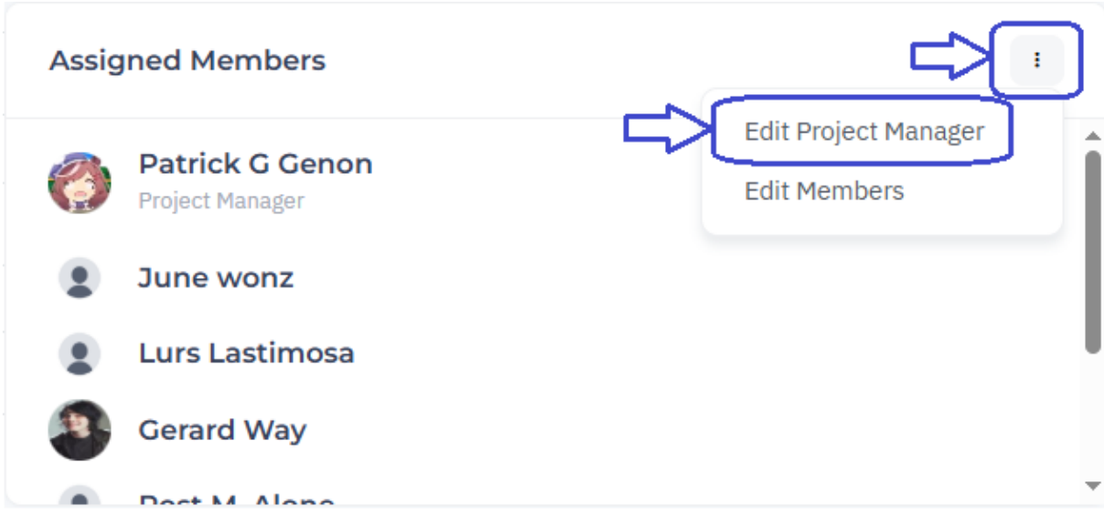
2. Clicking this **"Edit "** allows you to update the "**Project Name", "Priority", "Client",** or "**Deadlines"** if project requirements change.
3. Then Select "**Save**".

Note: The **"Delete"** option will permanently remove an entry from the system.

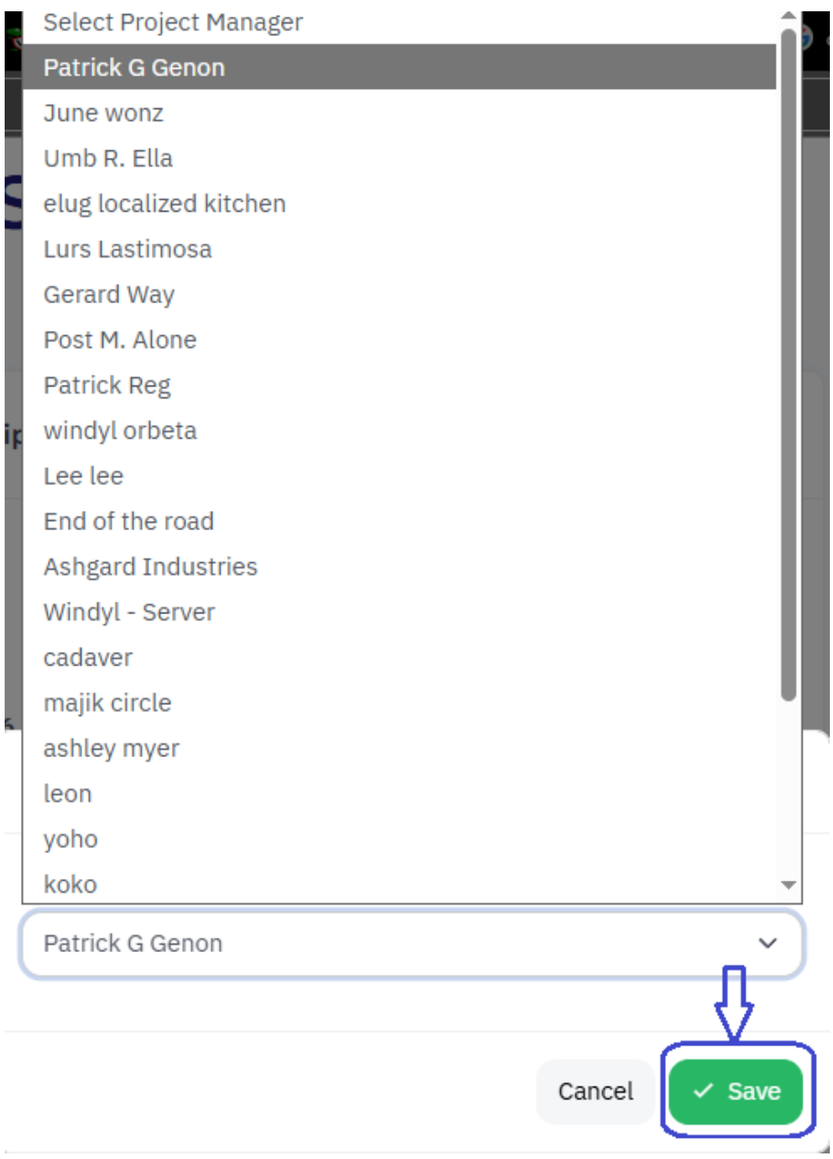


Note: Editing Project Manager and Members.

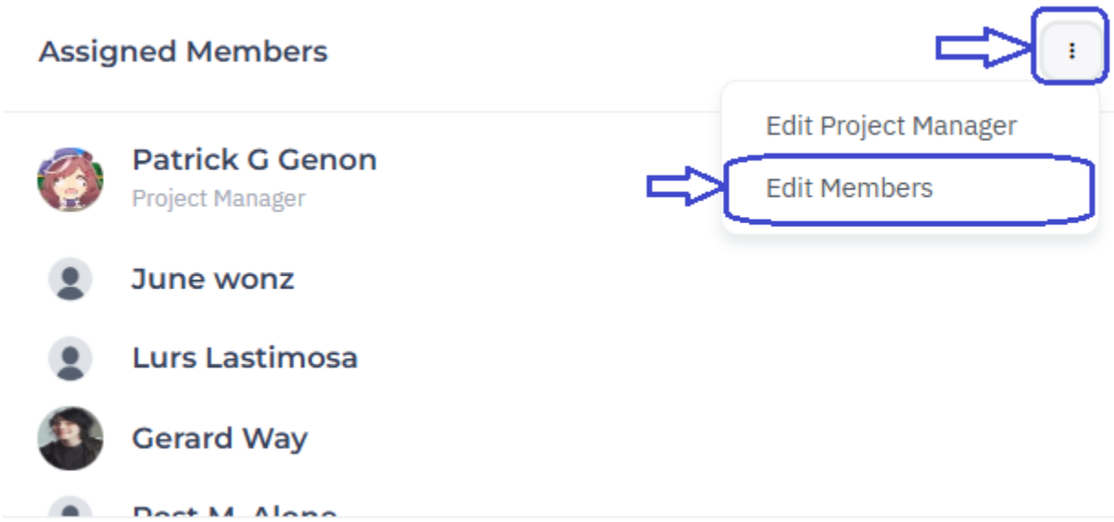
4. Click the **"three-dot icon (⋮)"** in the upper right-hand corner of the "**Assigned Members**".



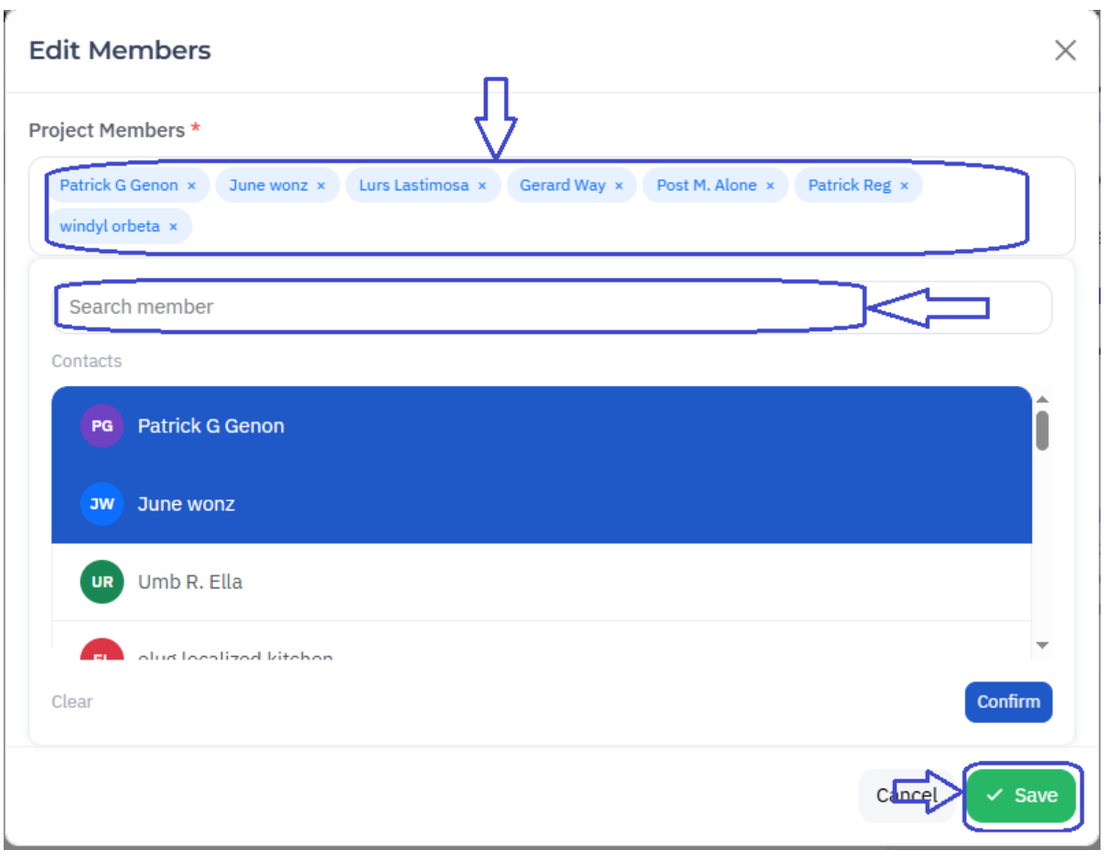
5. Upon clicking **“Edit Project Manager”** a list will display active members on the system.
6. Select the new **“Assigned Project Manager "** and click “**Save.”**



7. Click the **“three-dot icon (⋮)”** in the upper right-hand corner of the **“Assigned Members”**.



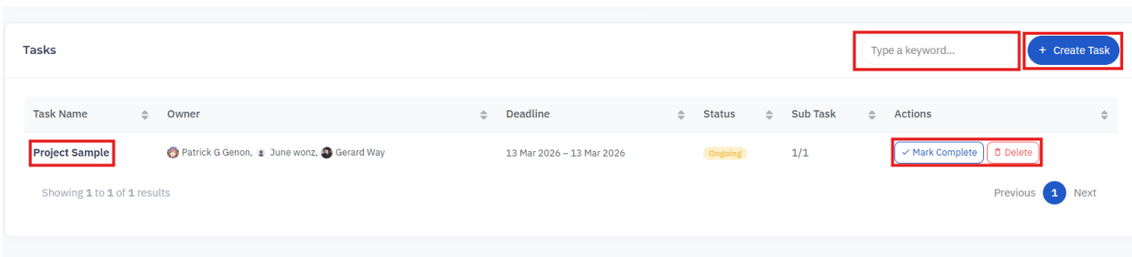
8. Upon clicking “**Edit Members**” a list of Project members will show up and select or search **“Project Members”.** And click **Save.**



III. **Edit Task Details**

Accessing Task Details

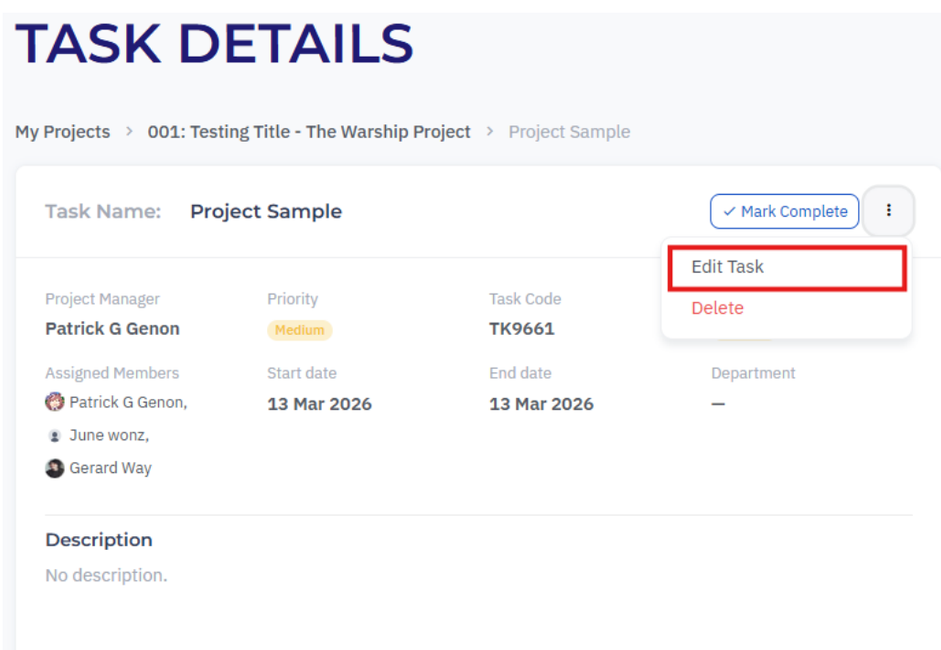
Click on any **Task Name** (e.g., "Project Sample") to be redirected to the full **Task Details** page. This is where we can view specific notes, sub-tasks, and full descriptions.



- **Quick Search:** Use the **Search bar** at the top right to filter tasks by entering keywords. This helps us find specific items quickly as our project grows.
- **Adding New Task:** Click the **+ Create Task** button to open the create task modal for a new task.
- **Mark Complete:** Instantly toggle the status to Completed.
- **Delete:** Permanently remove the task directly from this table.

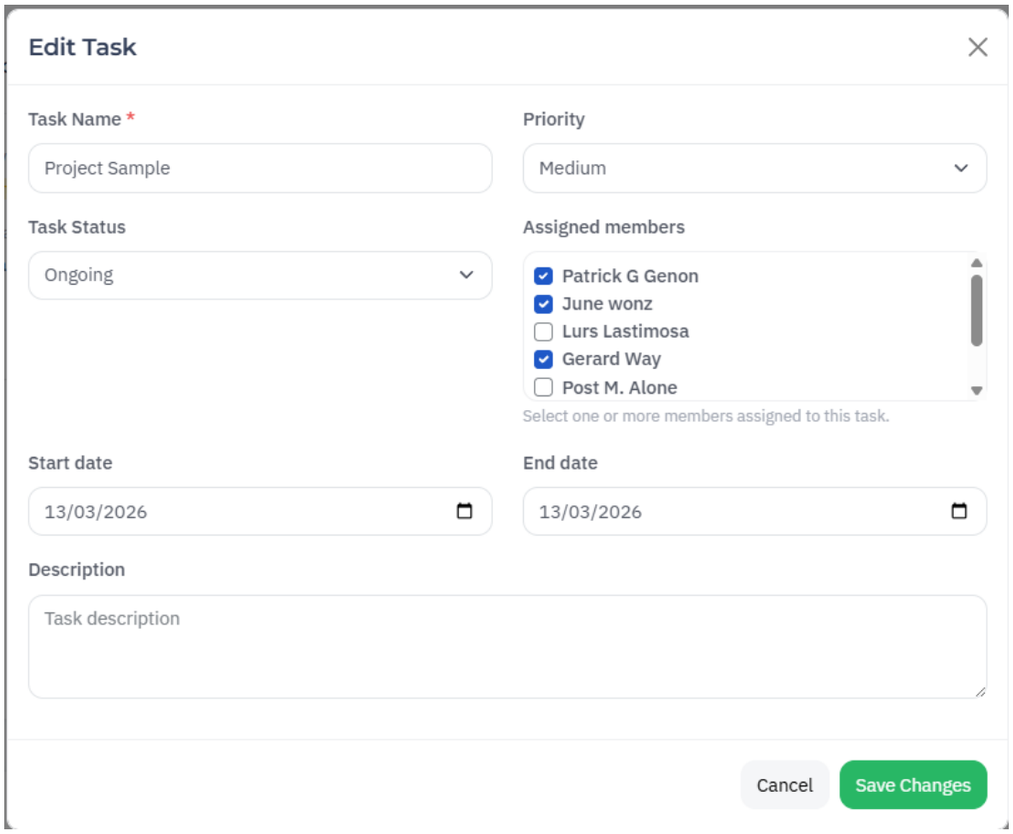
To modify the task

Click the **Options (⋮) menu** located in the top-right corner and select **Edit Task**.



- To permanently remove the task from the system, select **Delete** from the options menu; please note that this action cannot be undone

Task Modification Guide



- **Task Name:** Enter a clear, concise title for the work to be done. (Required field)

- **Priority:** Use the dropdown to set the urgency level (e.g., Low, Medium, High) to help us prioritize our workflow.

- **Task Status:** Update the current progress of the task, such as "Ongoing," "Pending," or "Completed."

- **Assigned Members:** Use the checklist to select the team members responsible for this task. We can assign multiple members as needed.

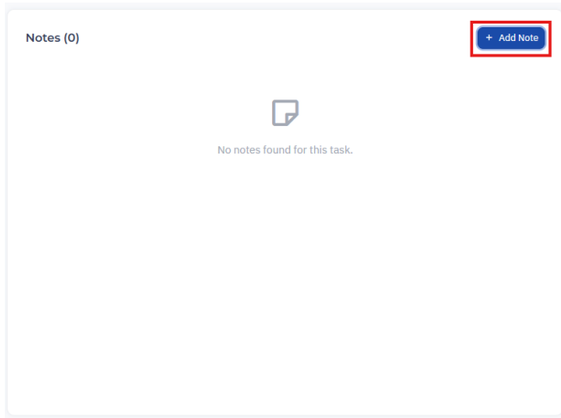
- **Start & End Dates:** Click the calendar icon to select the project timeline.

- **Note:** The **Start Date** must be set to a date occurring before the **End Date** to ensure a valid project schedule.

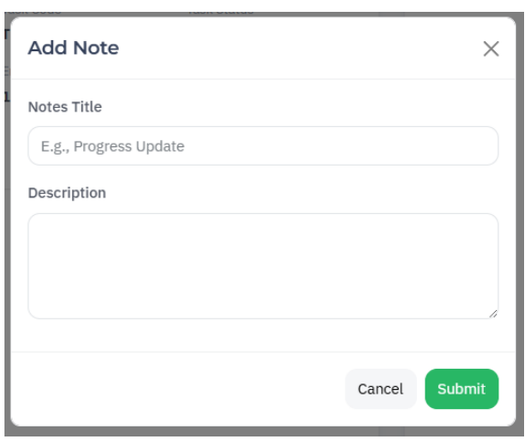
- **Description:** Provide additional context, specific instructions, or goals for the task in the text area.

- **Save Changes:** Click the green button to apply our updates or **Cancel** to discard them.

Managing Task Notes



- **+ Add Note Button:** Click this blue button in the top-right corner to open the creation window.



- **Notes Title:** Give the update a brief name (e.g., "Progress Update," "Blocker Found," or "Client Feedback").

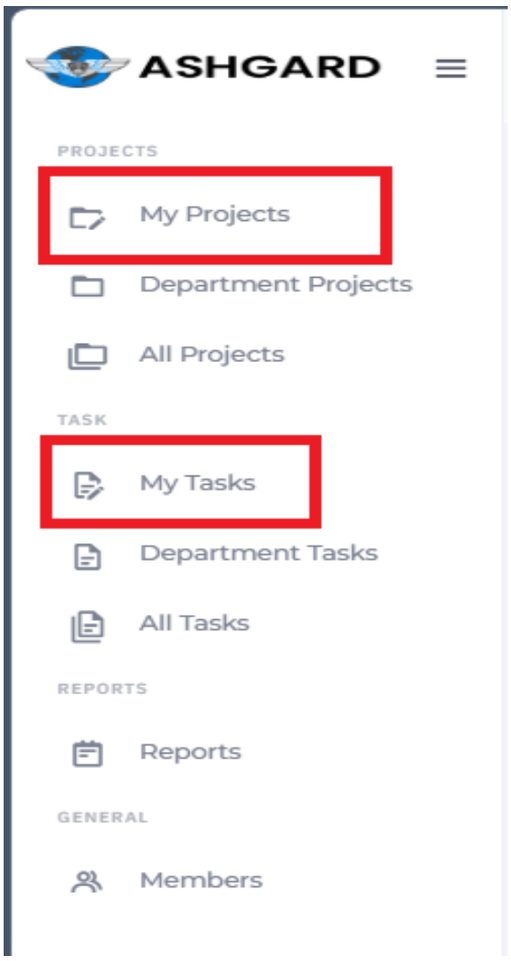
- **Description:** Use the larger text box to provide detailed information or specific notes for the team.

- **Submit:** Click the green button to save the note and attach it to the task.

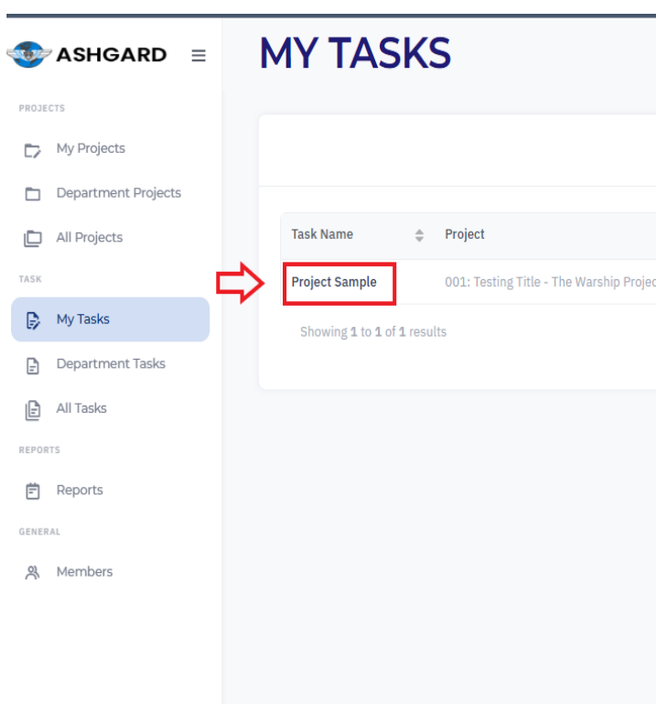
- **Cancel:** Click this if we want to close the window without saving our changes.

Adding a Subtask

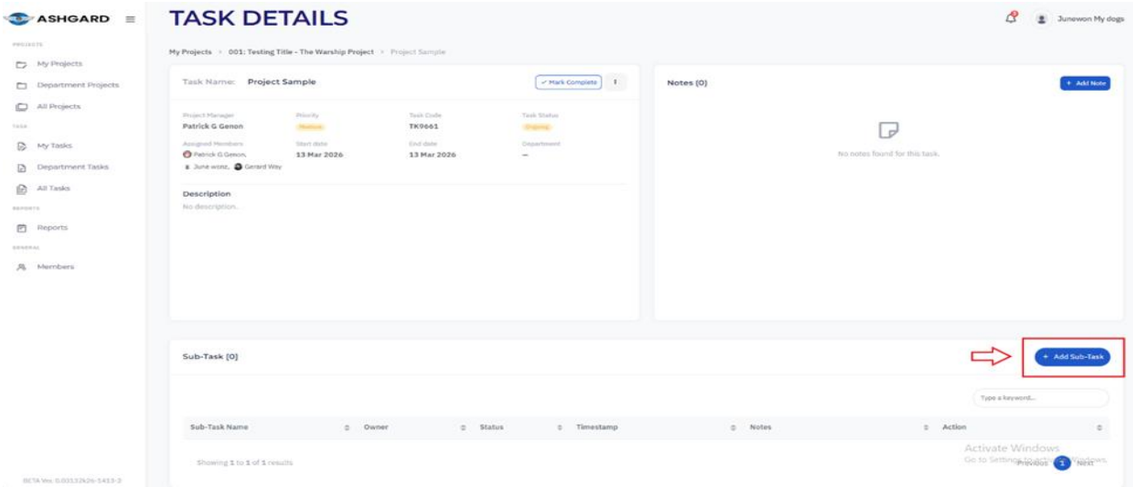
- Locate the **My Projects** or **My Tasks** tab in the sidebar.
- For this example, select the **My Tasks** tab to proceed.



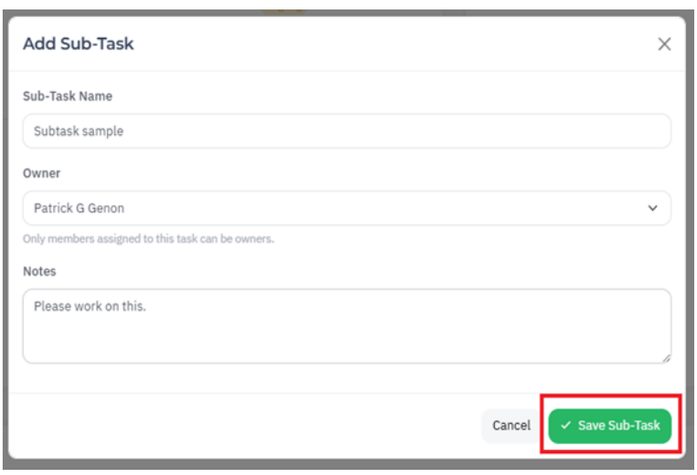
- Under the **Task Name** column, click on the task you wish to manage. It will direct you to task details page.



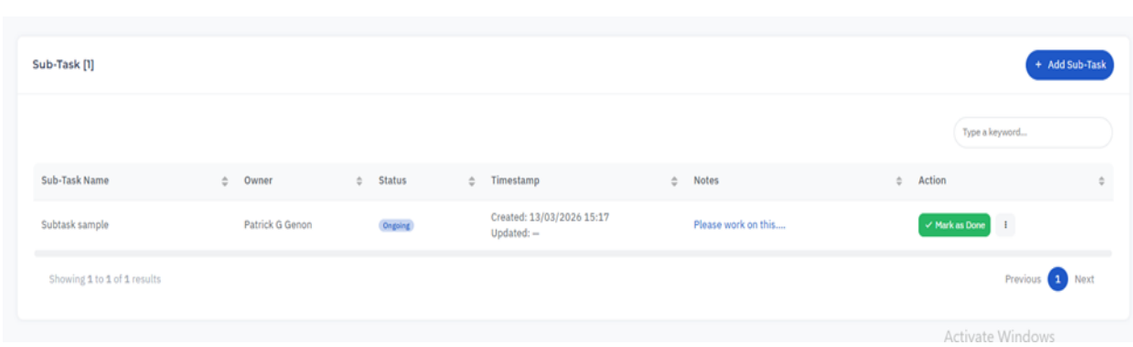
- To add, Click the **Add Sub-Task** button



- When the **Add Sub-Task** form appears.



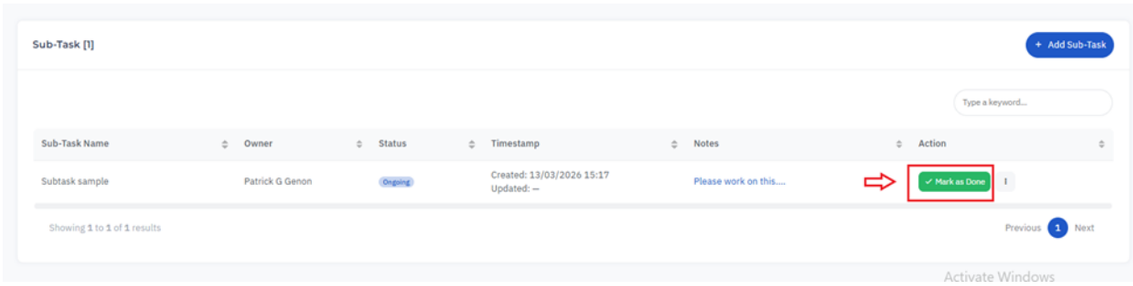
- Enter the sub-task name.
- Assign an **Owner** from the list of available members.
- Add any **Notes** if necessary (this field is optional).
- Click the green **Save Sub-Task** button to complete.



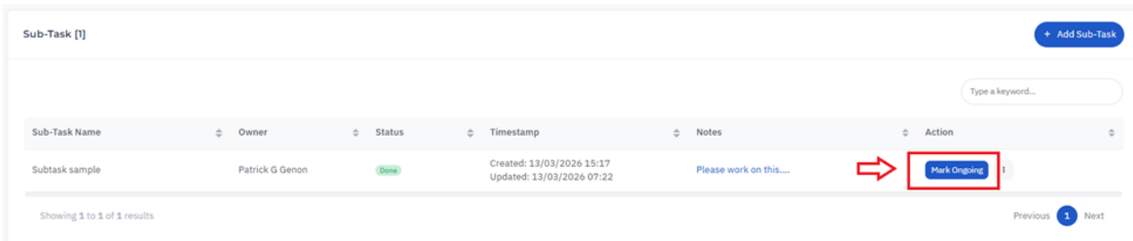
- This is what should be display in the sub-task table

To manage your Subtasks

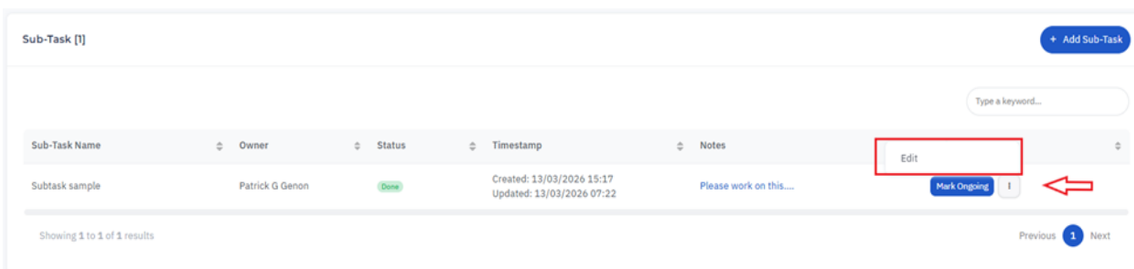
- Click **Mark as Done** in the Action column to complete a subtask



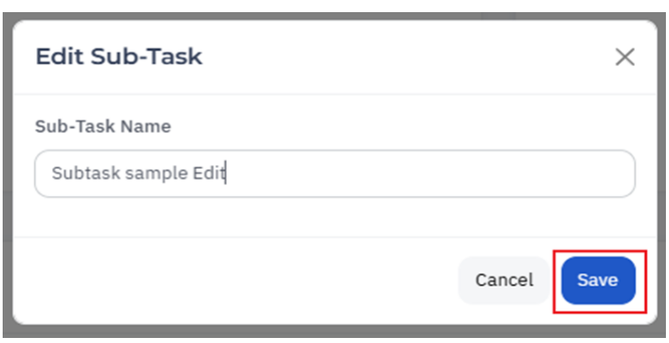
- If a task needs to be reopened, simply click **Mark Ongoing** to revert to the status.



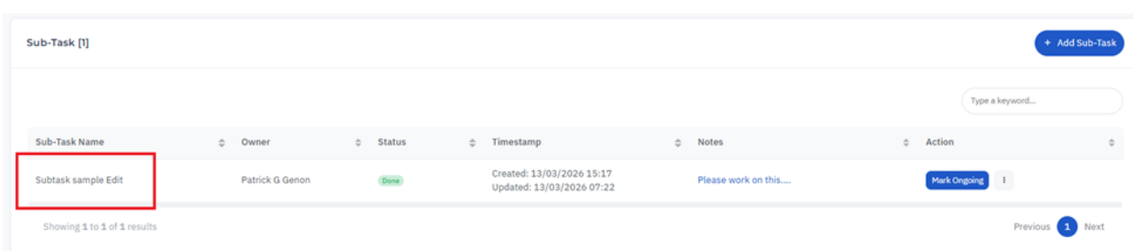
- To change the subtask name, click the **three dots (options menu)** and select **Edit**



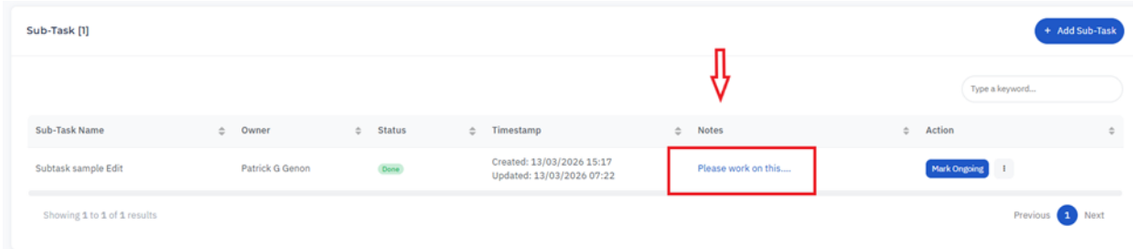
- Update the name as needed and click **Save** to apply your changes.

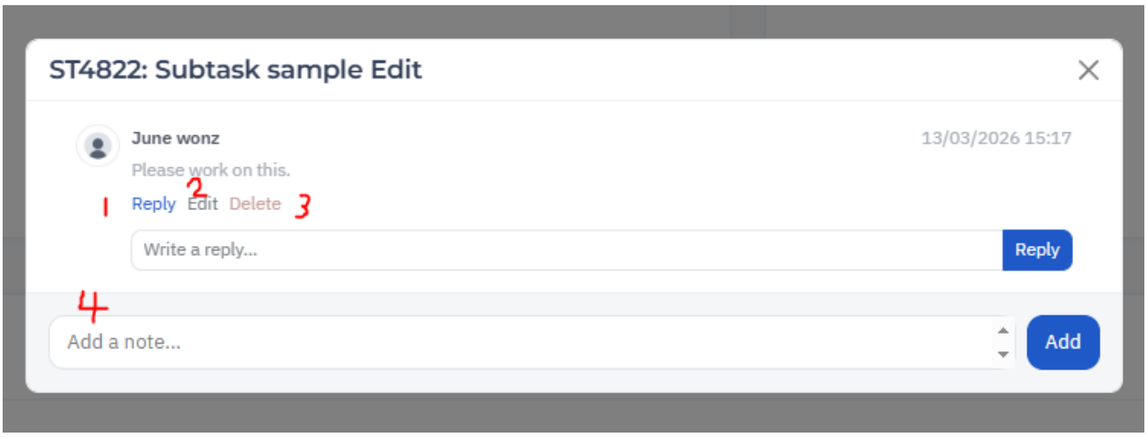


- You have updated the subtask-name successfully.



- To add notes, simply click directly on the text within the **Notes** column.





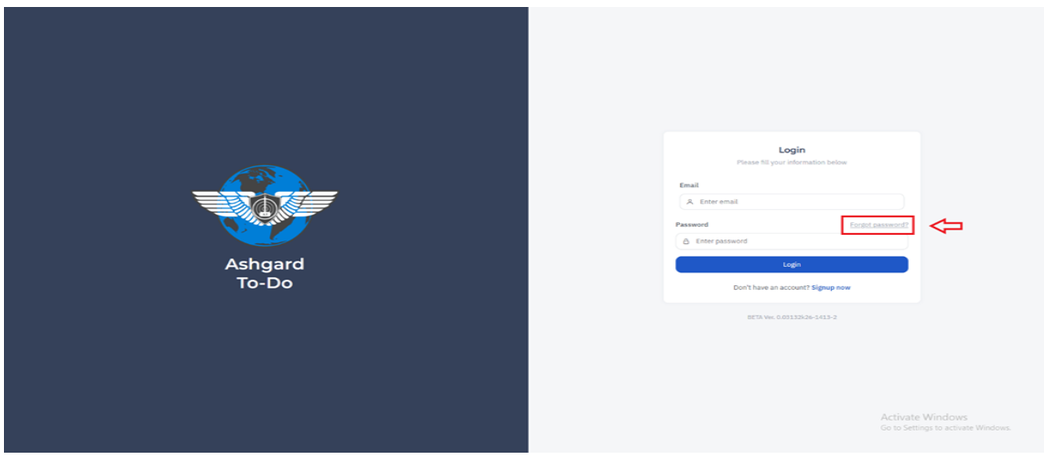
1. **Reply:** Click this to open a text field and respond to a specific note or comment.
2. **Edit:** Use this to modify the content of a note you have already posted.
3. **Delete:** Select this to remove a note entirely.
4. **Add:** Add a new note then click **Add** button to send.

Resetting Your Password

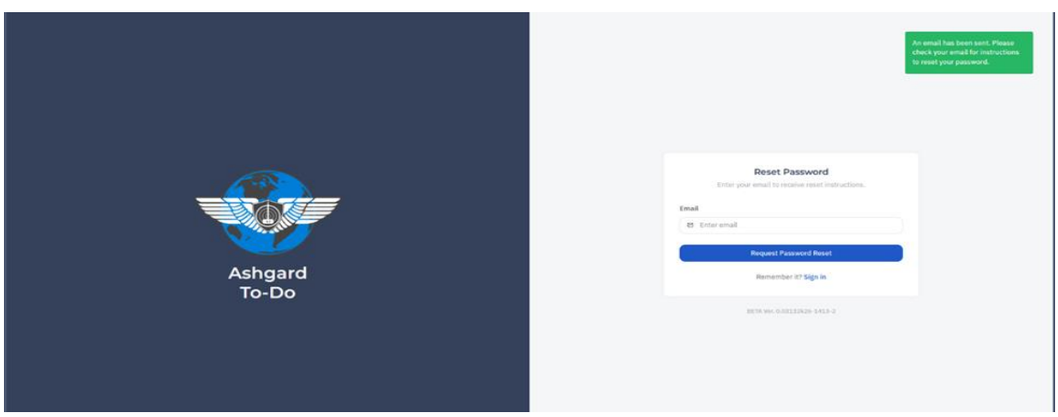
- There are two ways to reset your password: **inside** the system (while logged in) and **outside** the system (from the login screen).

Method 1: Resetting Password from the Login Screen

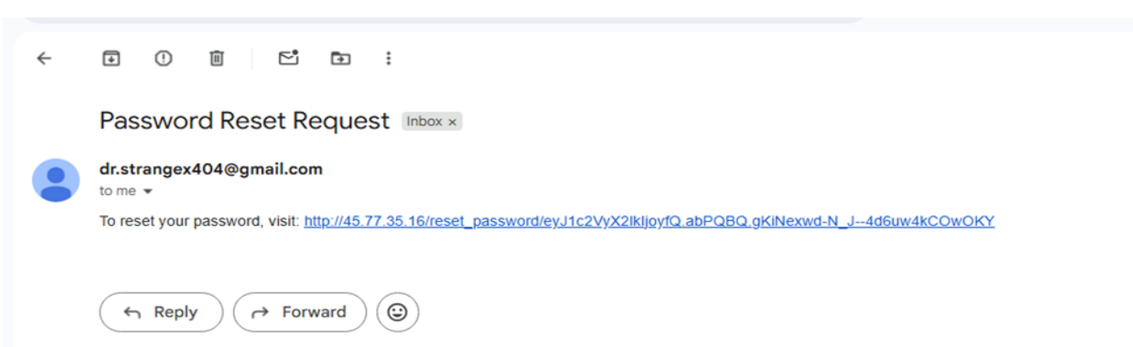
Use this method if you have forgotten your password or cannot log in to the system.



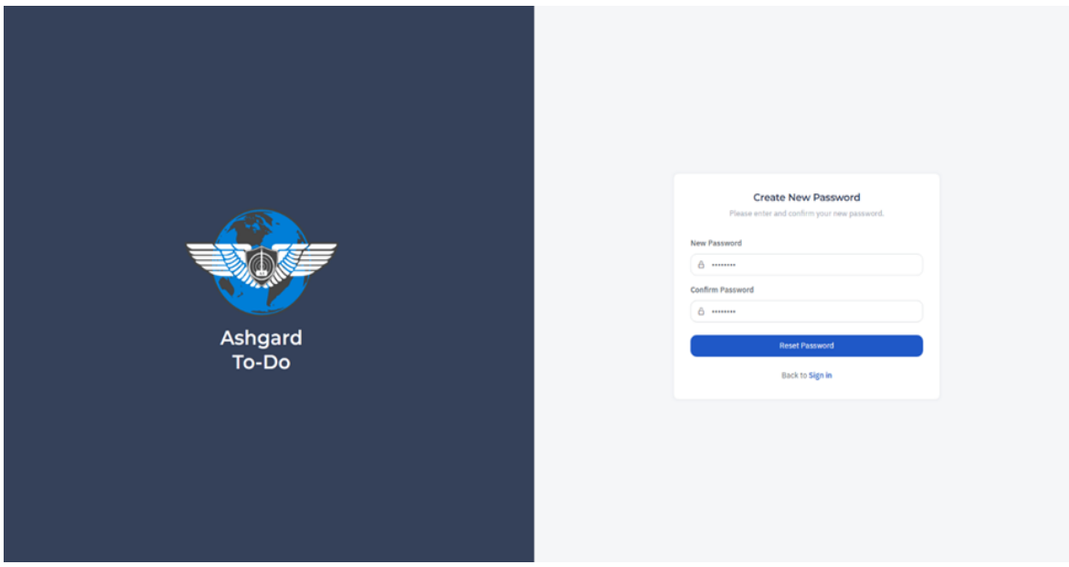
- On the login page, click the **Forgot Password?** link located just above the password field.



- Type in the email address associated with your account and click **Request Password Reset**. A confirmation notification will appear at the top of the screen.

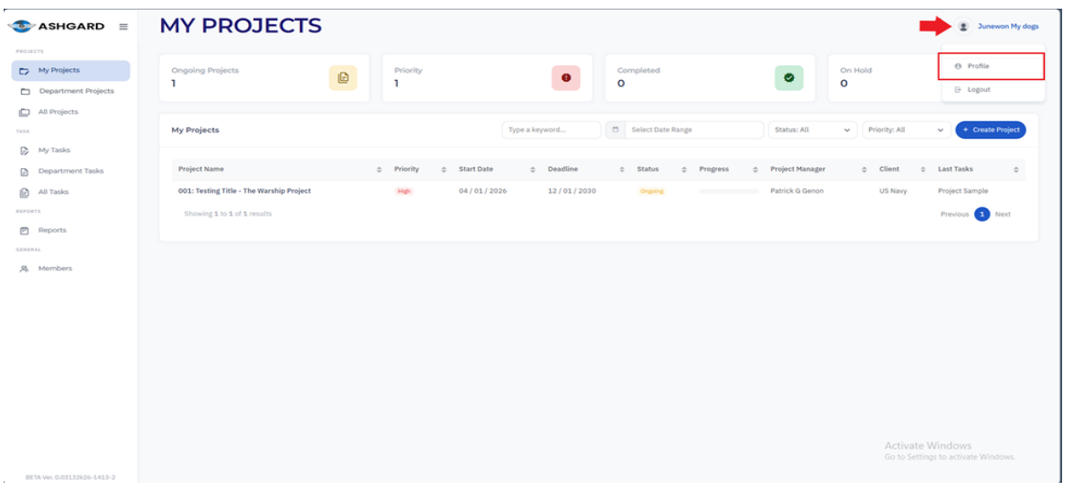


- Look for a "Password Reset Request" email in your inbox. Click the **reset link** provided in the message.

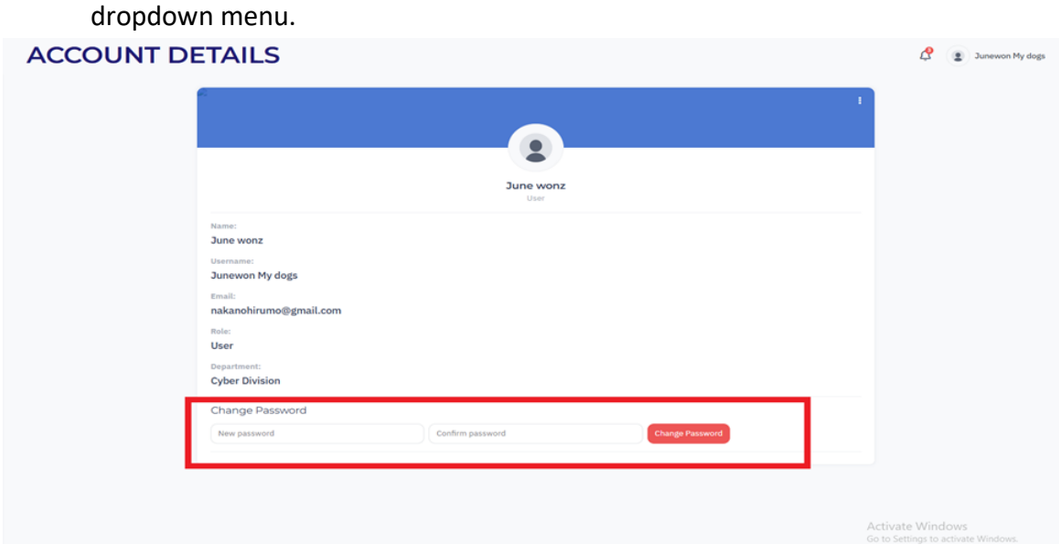


- You will be redirected to the **Create New Password** page. Enter your new password, confirm it, and click the **Reset Password** button. It will then redirect you to login from.

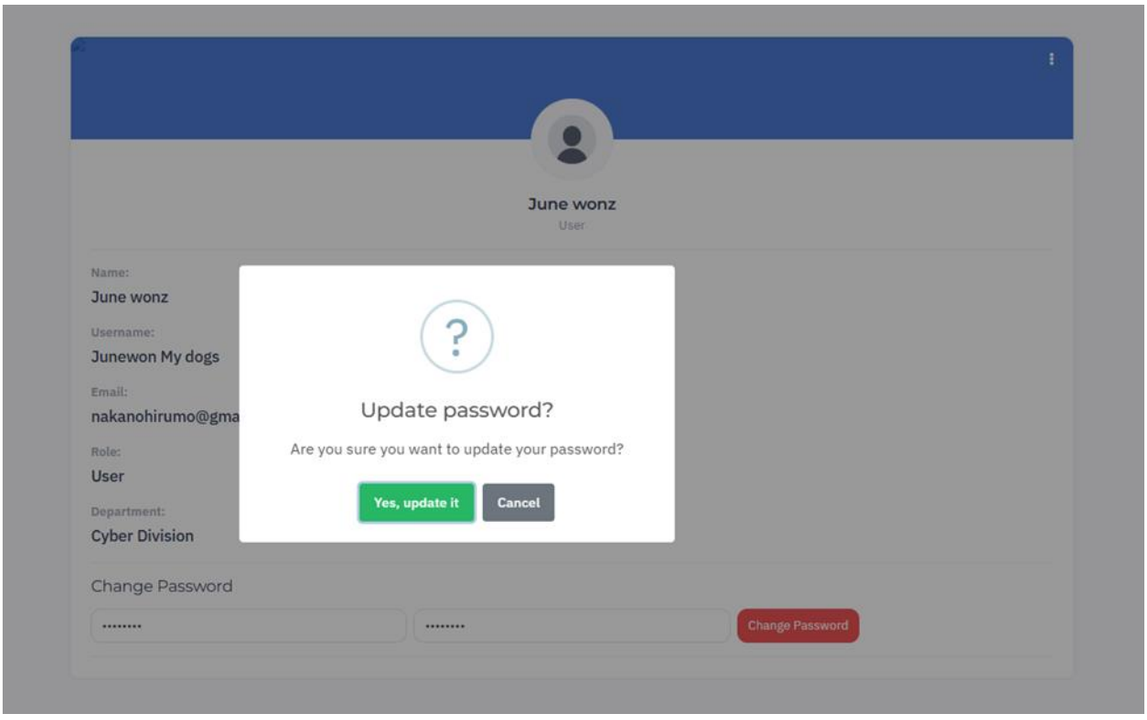
Method 2: Resetting Password while logged in



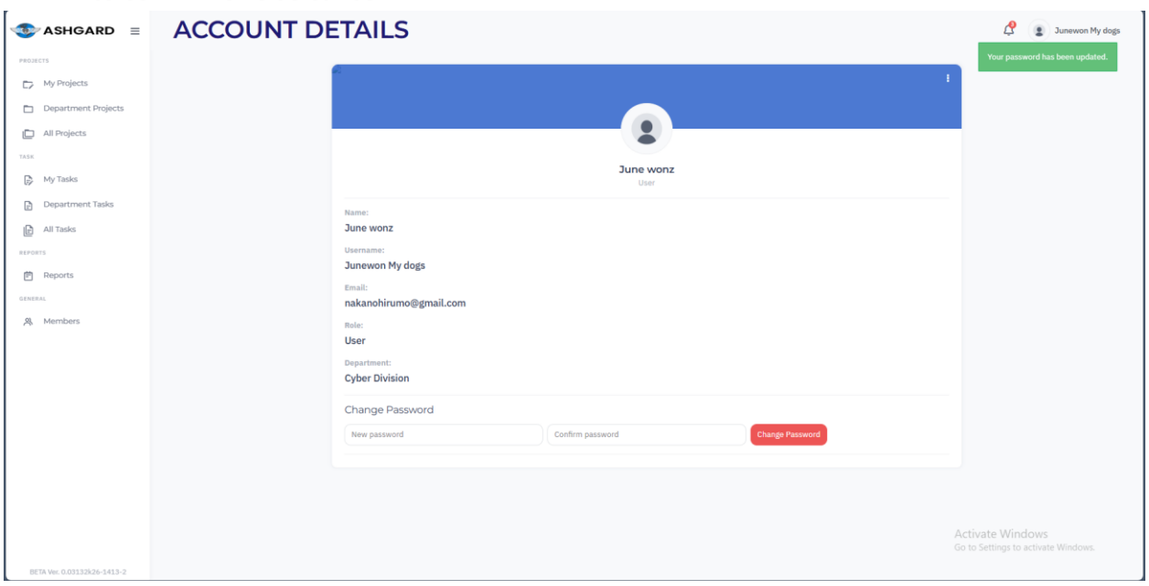
- Click on your name in the top-right corner of the dashboard and select **Profile** from the dropdown menu.



- On the Account Details page, scroll down to the **Change Password** section.
- Enter your **New Password**.
- Re-type it in the **Confirm Password** field.



- An alert will show for the confirmation, click **Yes, update it** green button on the left side to confirm or else cancel.



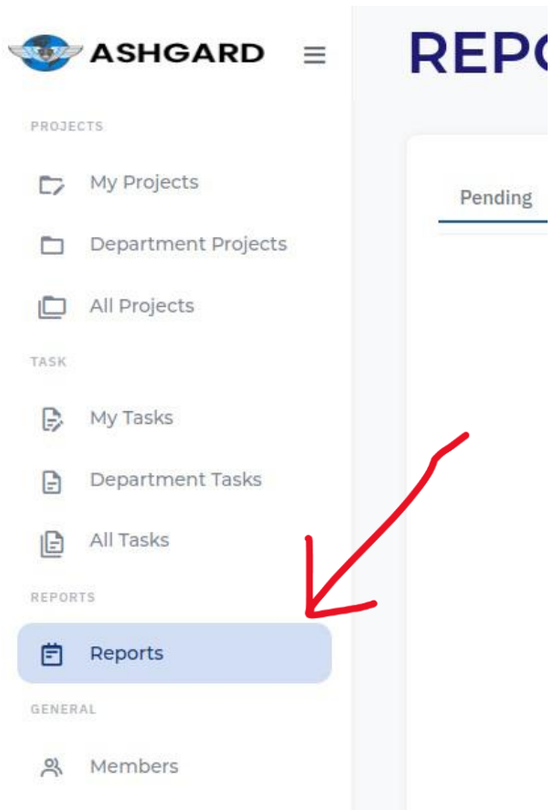
- A notification shows that **your password has been updated**.

WEEKLY REPORTS

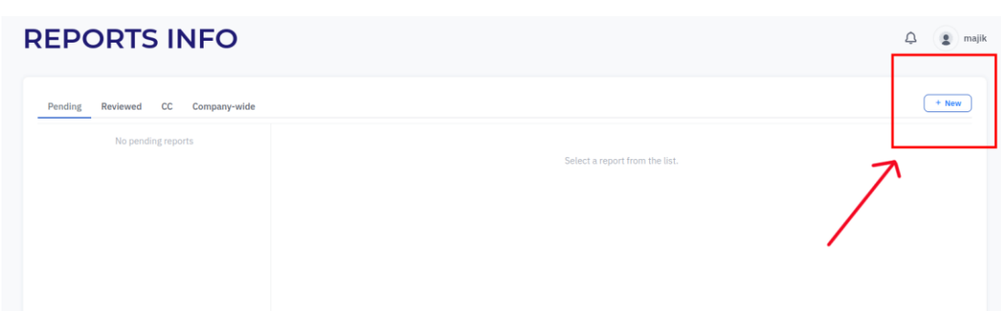
When writing a report

The Reports tab enables you to create your weekly reports, detailing the work you did over the week.

1. To make a report, go to the sidebar and click the "Report" tab, and it will redirect you to the Report page.



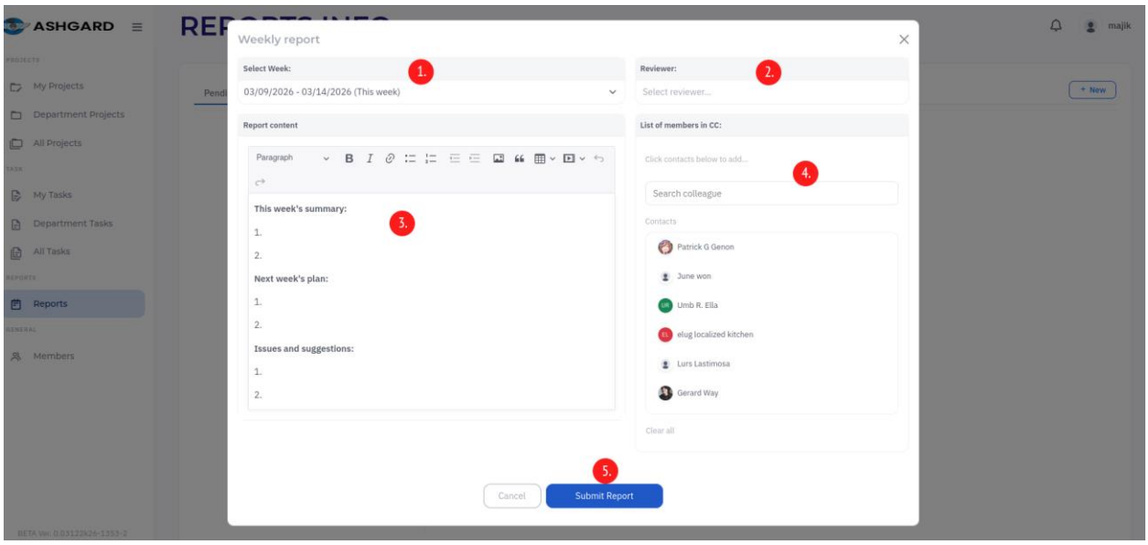
2. On the Report page, on the top right corner click on the "New" button - this will open a form modal.



3. On the form modal fill up the needed inputs
   a. Select week => automatically select the current weeks date range (doesn't include Sunday)
   b. Reviewer => select the member (your supervisor) you want to see and approve your review

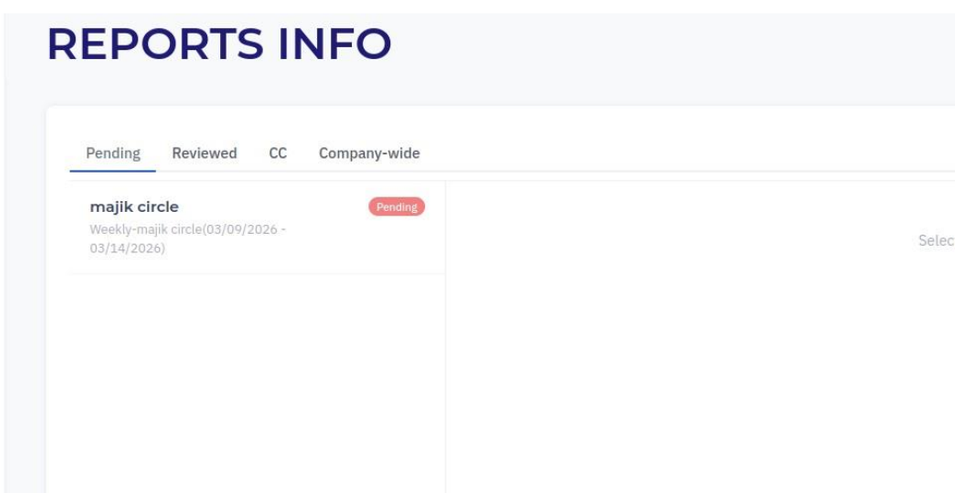
c. Report content => this is where you write your report

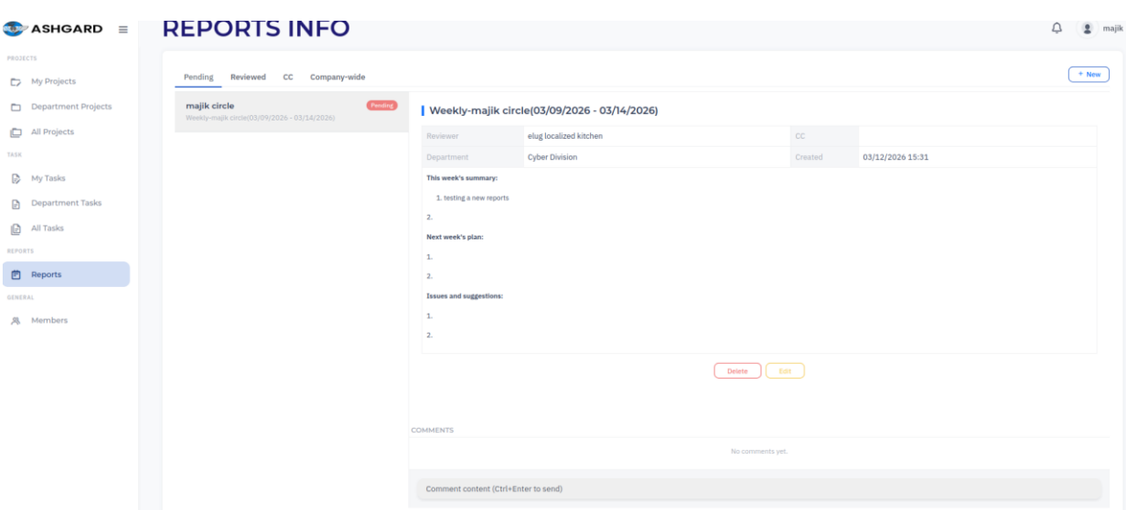
d. members to CC => the members you want to involve in your report, you can select more than 1 member



Then click the "Submit Report" once the form is ready

4. After the report is submitted you will be redirected to the "Pending" tab, with your report pending for review



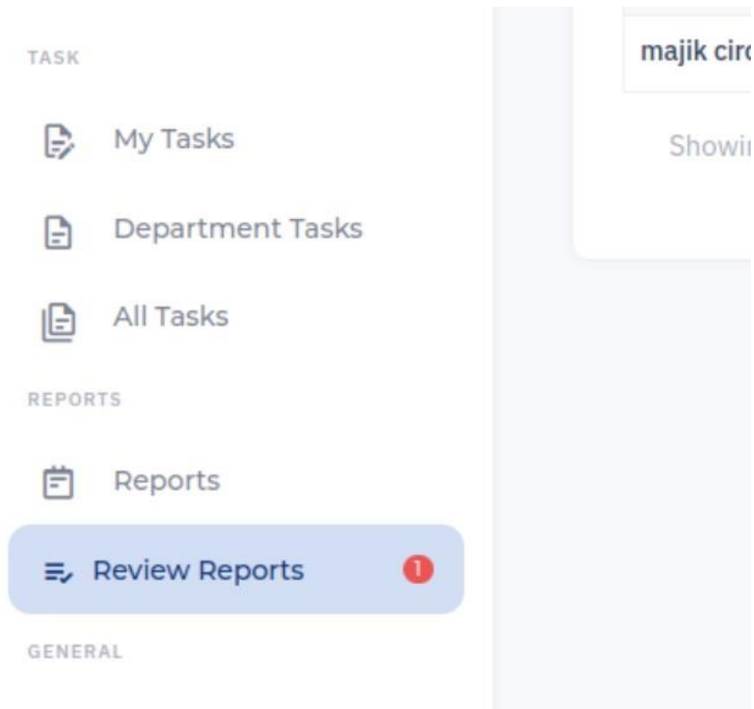


When reviewing a report

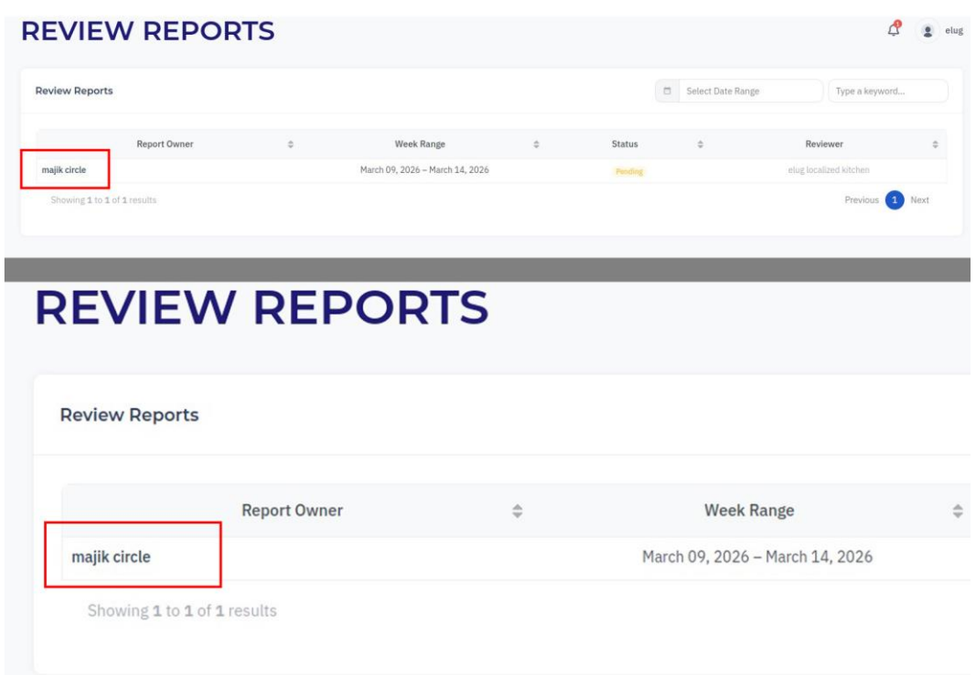
When someone makes a report, assigning a member as the Reviewer (likely your supervisor) is required so they can check your progress for the week.

When you are assigned as Reviewer, another tab is created on the sidebar called "Review Reports"

1. To check the reports, go the sidebar and click on the "Review Reports" tab and it will redirect you to the Review Reports page

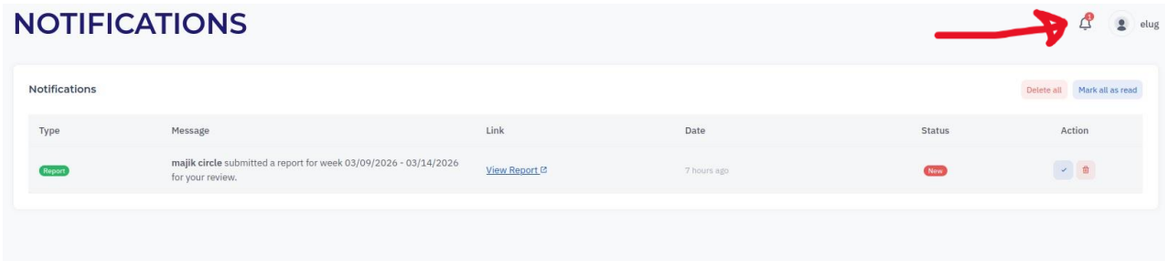


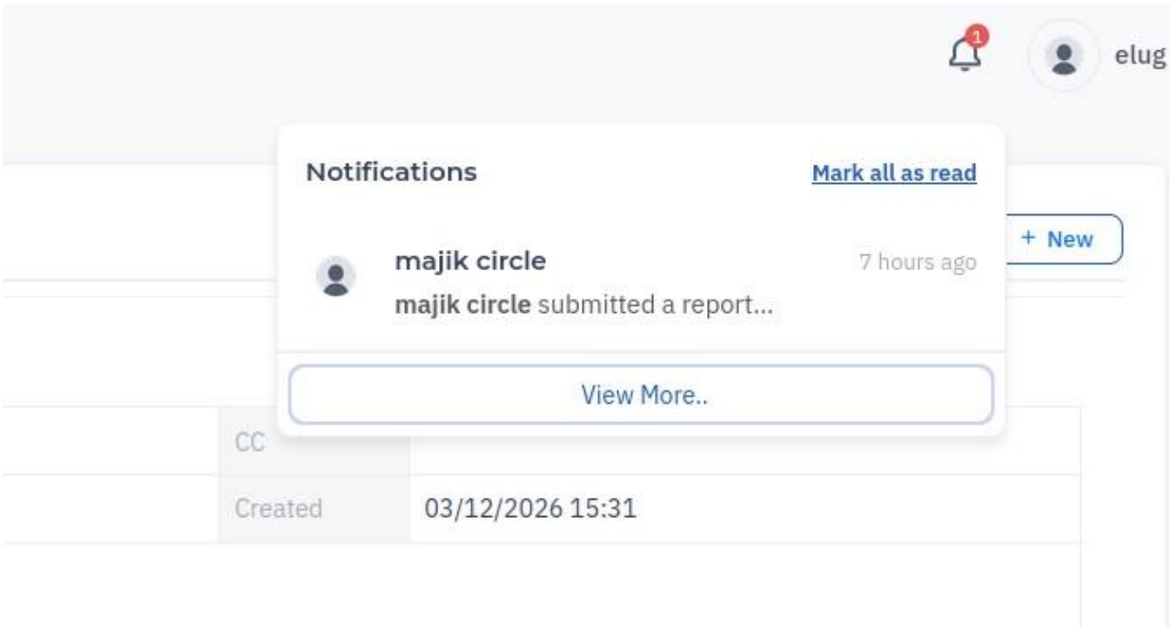
2. On the Review Reports page, on the table and on the Report Owner column - clicking the member's name will redirect you to the report they made.



On this page, you approve the report for record keeping and leave comments about the report.

Note: you can also view the reports from the Notification bar on the top right near your profile image.

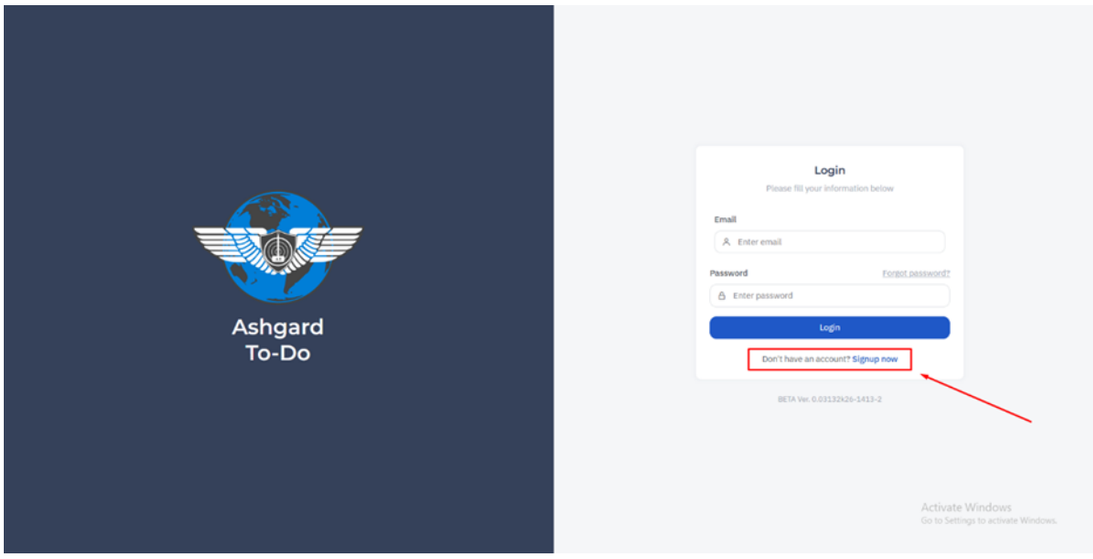




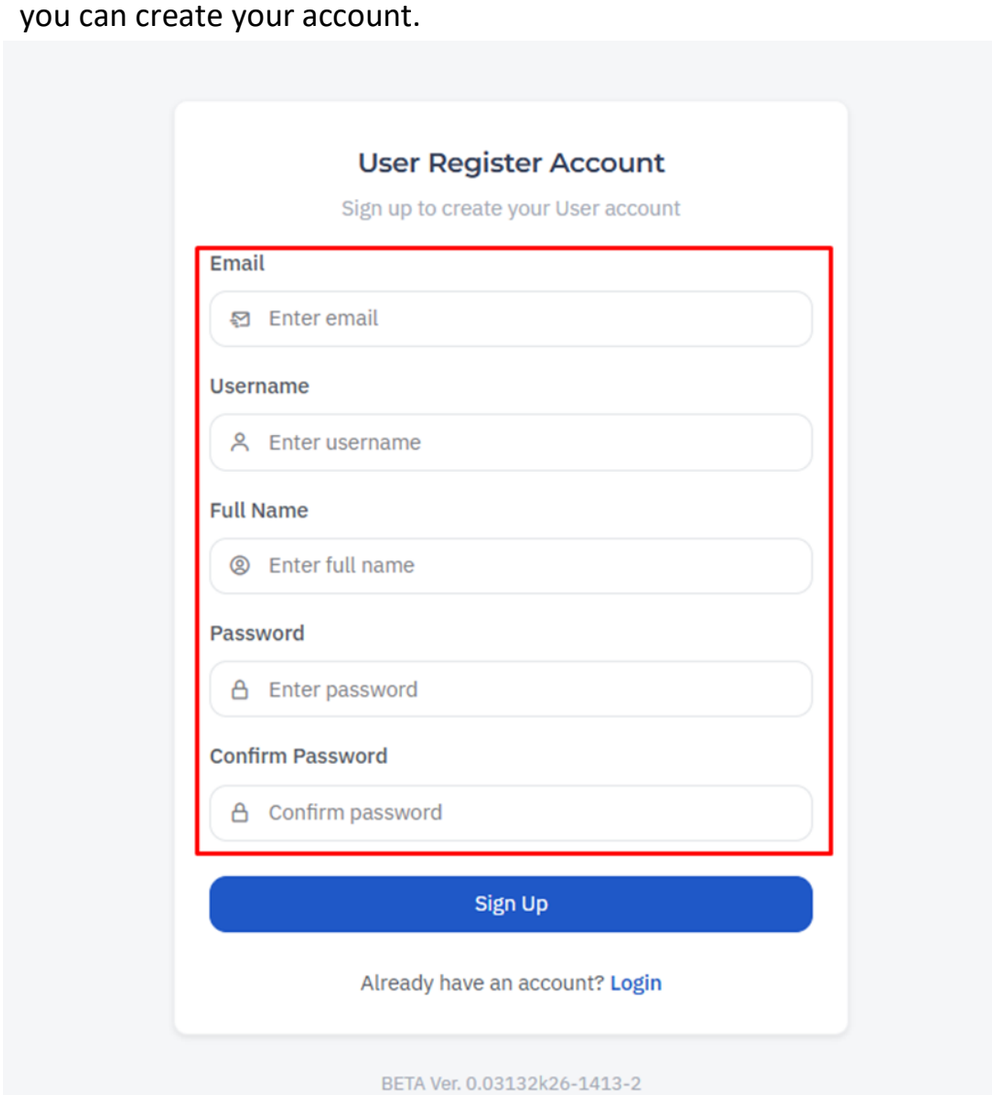
Registration Guide

Regular User

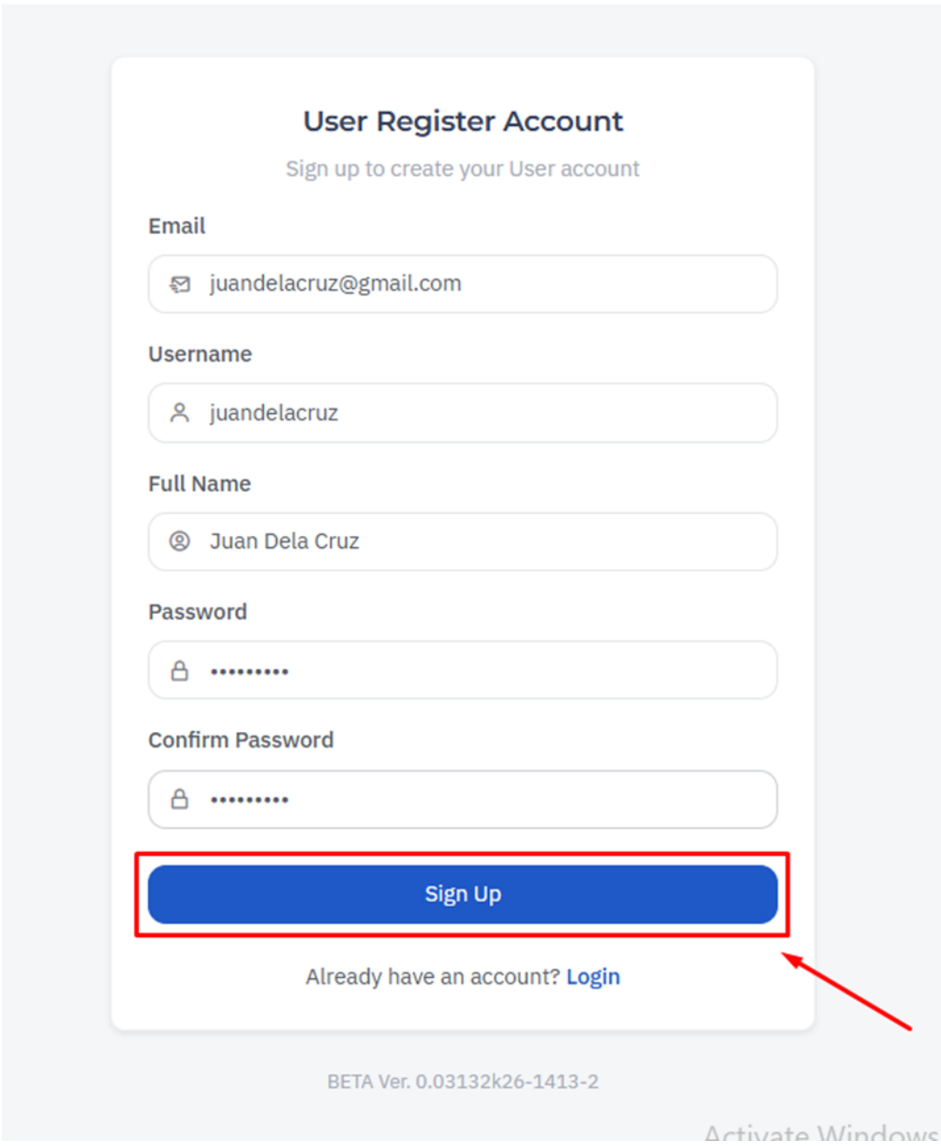
1. To begin, register for an account by clicking the **“Signup Now”** button on the website’s main page. This will direct you to the registration form where you can create your account.



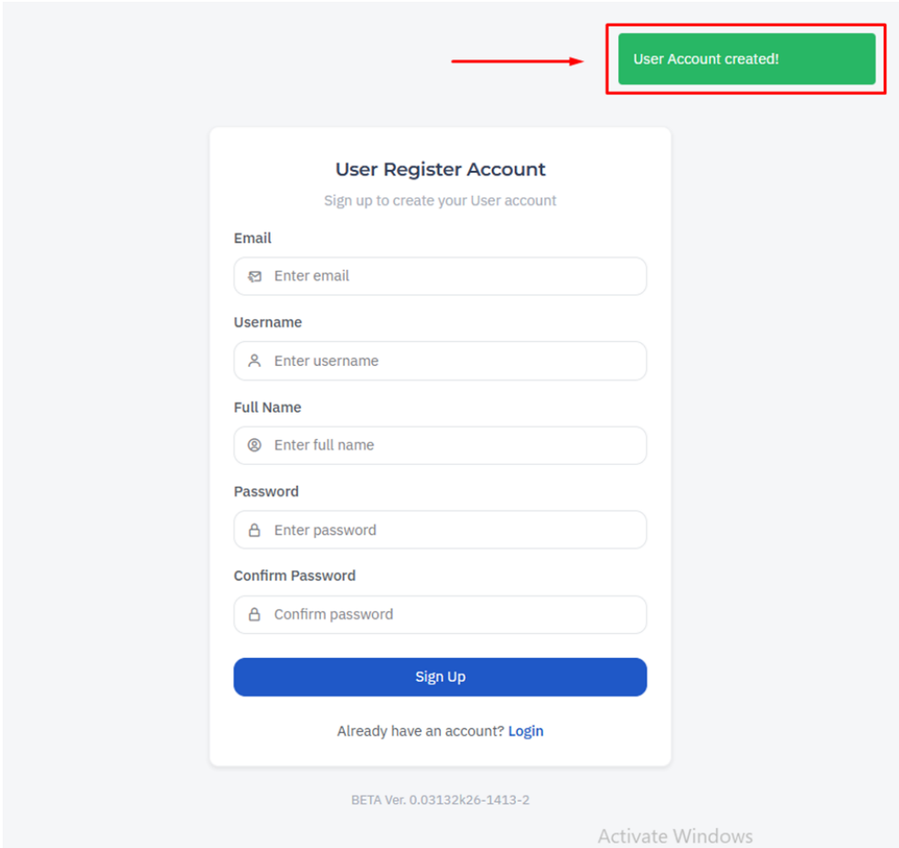
2. To begin, register for an account by clicking the **“Signup Now”** button on the website’s main page. This will direct you to the registration form where you can create your account.



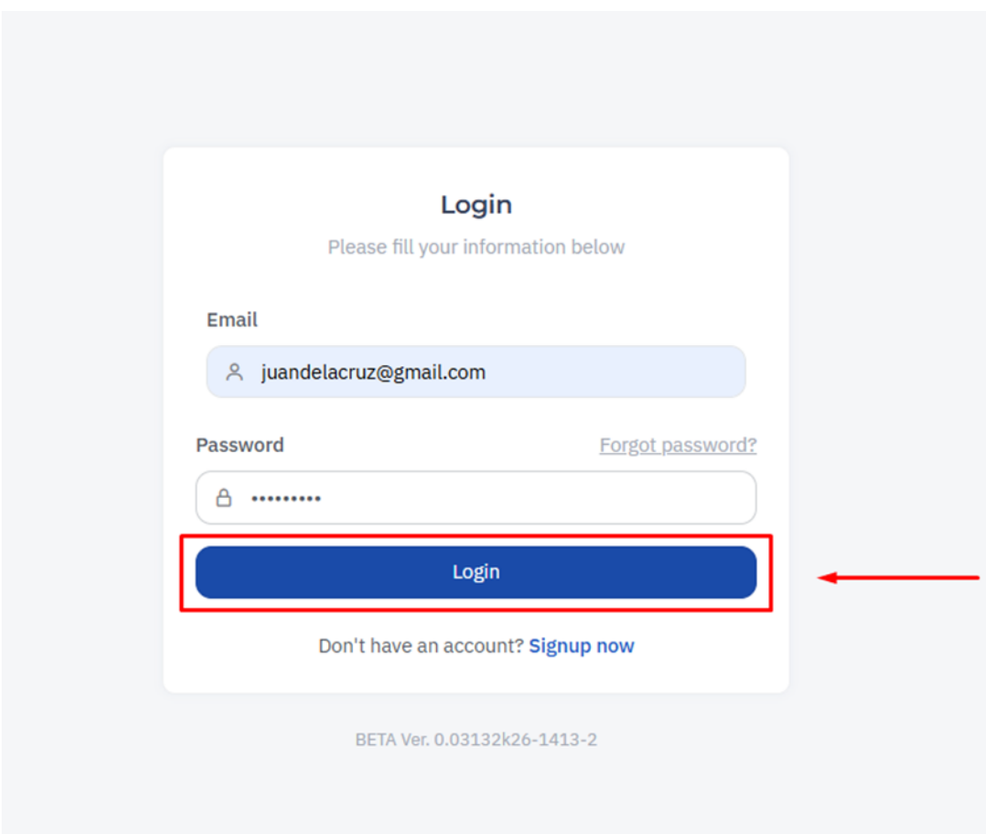
3. After completing all the necessary fields, review the information you entered to ensure accuracy. Once everything is correct, click the **“Sign Up”** button to successfully register your account.



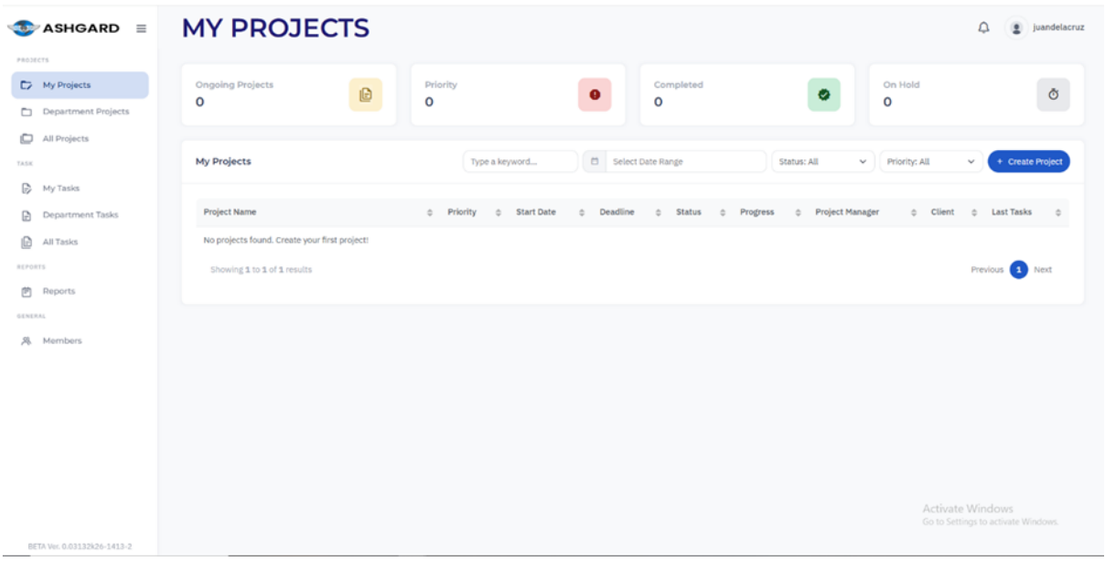
4. After submitting the form, you will see a notification on the upper-right corner of the screen confirming that your account has been successfully registered.



5. Next, log in using the **email address and password** that you created during the registration process. Enter your credentials in the login form and click the **"Login"** button to proceed.



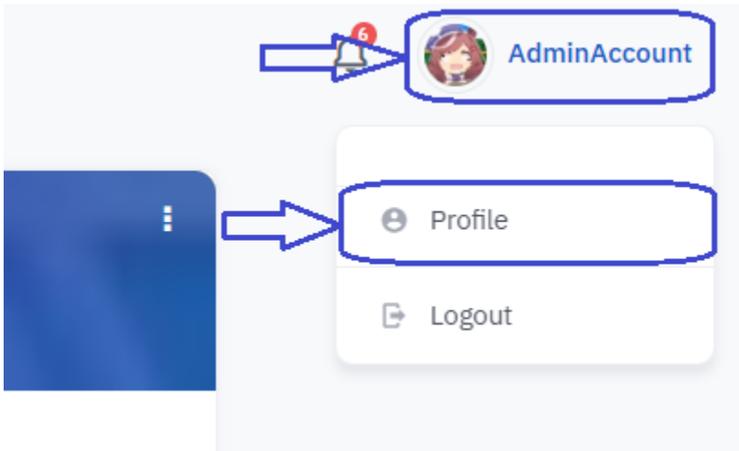
6. Once you have logged in successfully, you will be redirected to the **dashboard of the Ashgard To-Do website**. From there, you can start managing your tasks, creating new to-do lists, and organizing your activities efficiently.



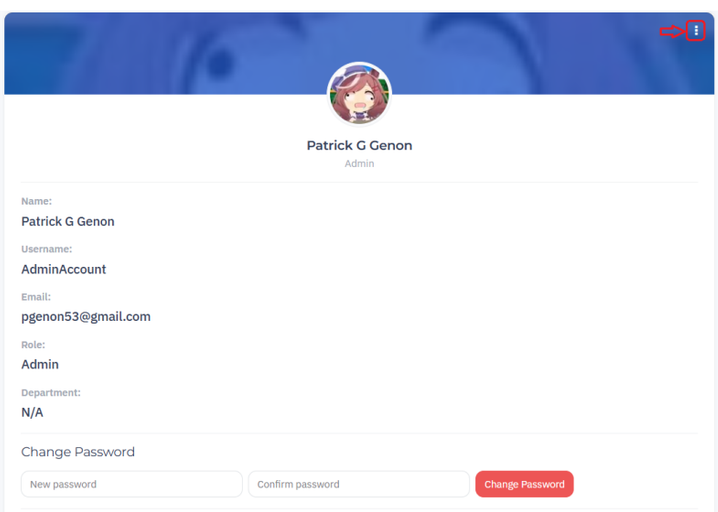
Editing Profile

1. At the top right corner, click profile picture to open a dropdown list where it shows **“Profile”** and **“Logout”,** click **“Profile”.**

   Note: Logout will exit you on the Asghard system.

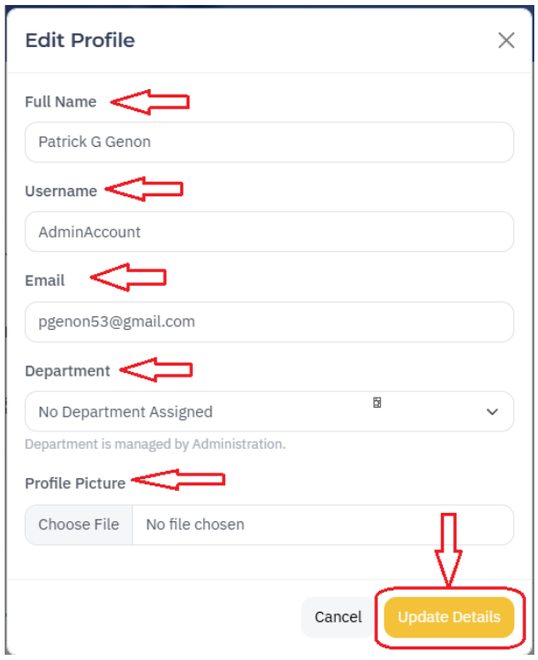


2. Upon clicking the profile this shows the **“Account Details”,** At the top right corner of the **“Account Details”** click the **“three-dot icon (⋮)”,** to show the **“Edit Profile list”.**



3. In the Edit Profile section, you can update your personal information, including your Full Name, Username, Email, Department, and Profile Picture.

4. Once you have made your changes, click the "Update Details" button to save your new account information.

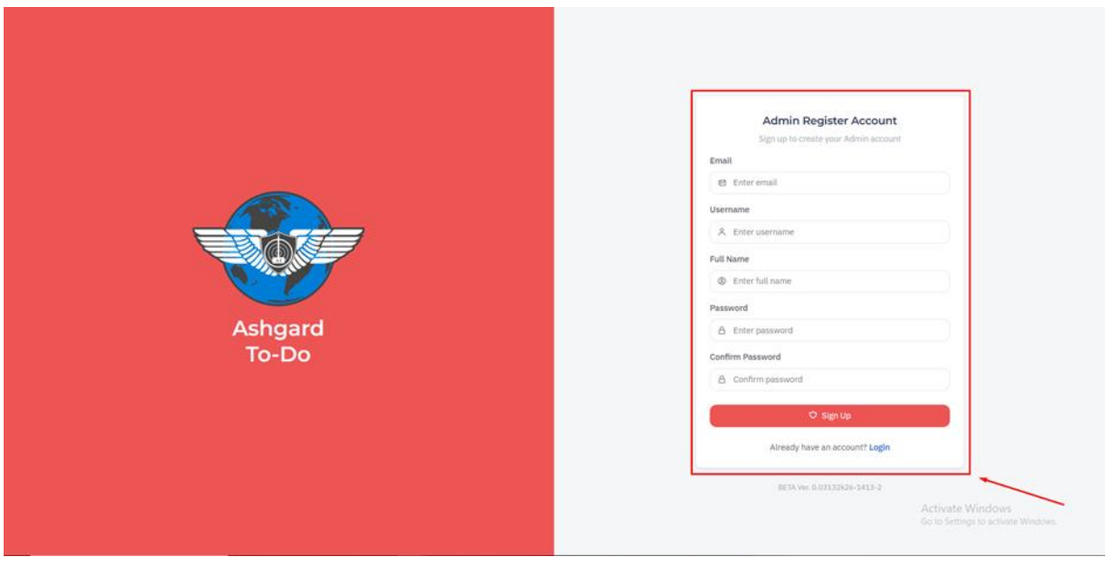


Registration Guide

Administrator

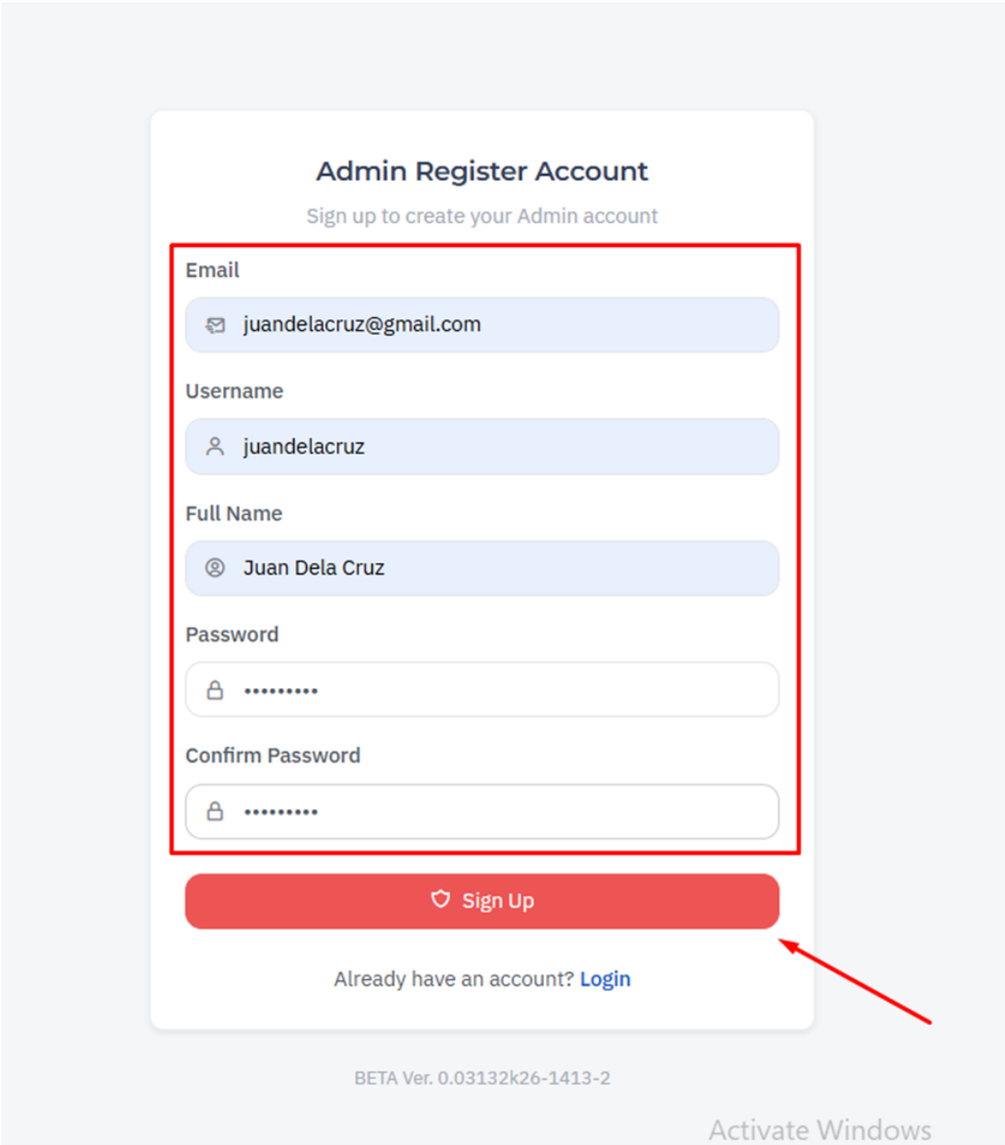
1. Admin Account Registration Page

To begin creating an admin account, click the **“Signup Now”** button on the website’s main page. This will take you to the registration form where you can set up your account.



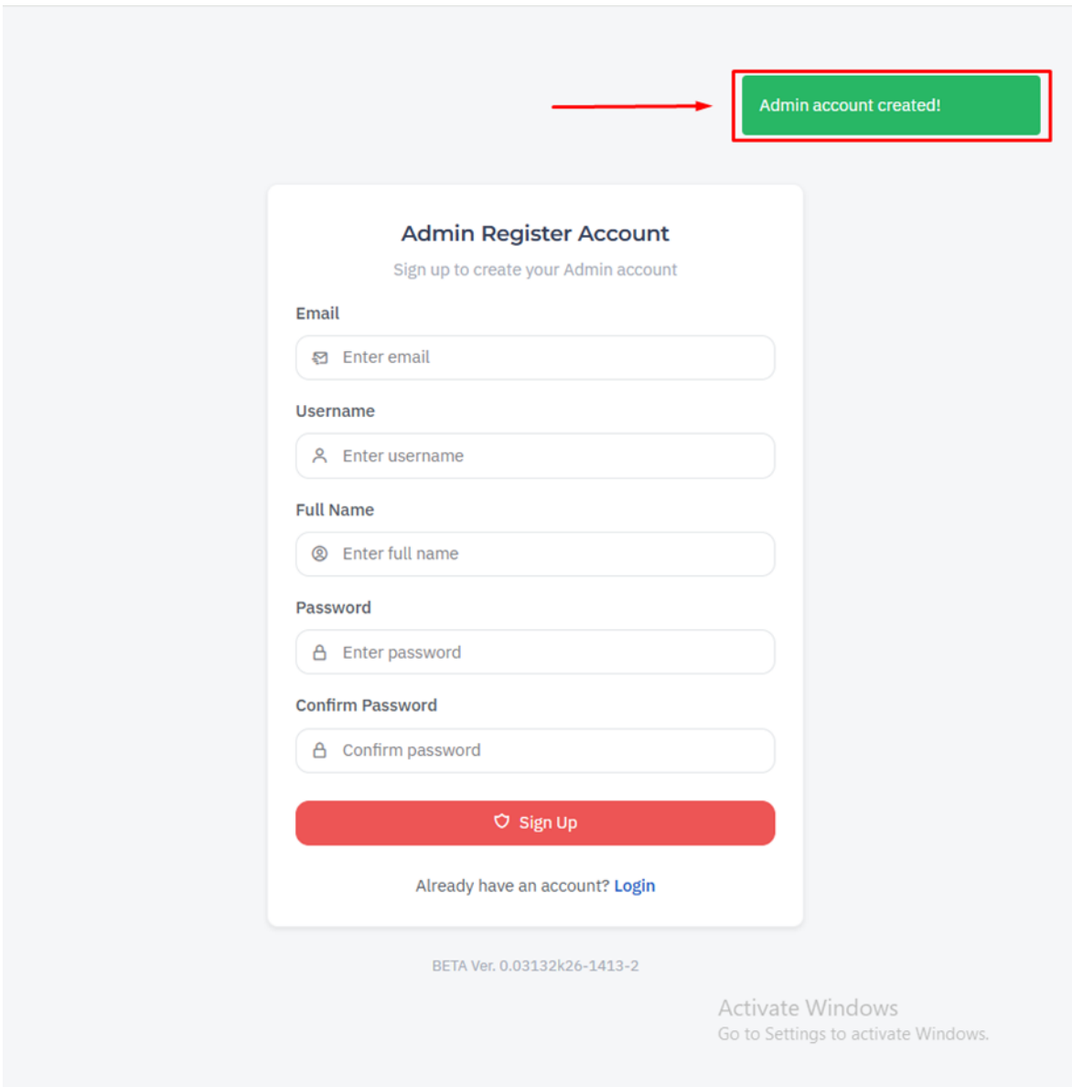
2. **Enter Required Information**

Fill in all the required fields in the registration form. Make sure the information you provide, such as your **email address** and **password**, is accurate. After completing all the necessary details, click the **"Sign Up"** button to register.



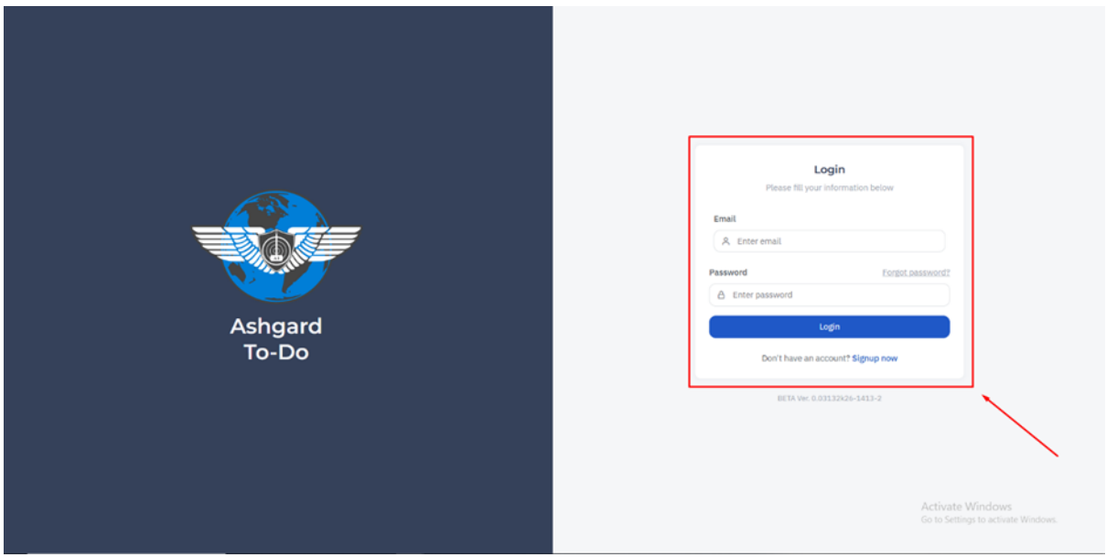
3. Registration Confirmation

After submitting the form, a notification will appear in the **upper-right corner of the screen** confirming that your admin account has been successfully registered.



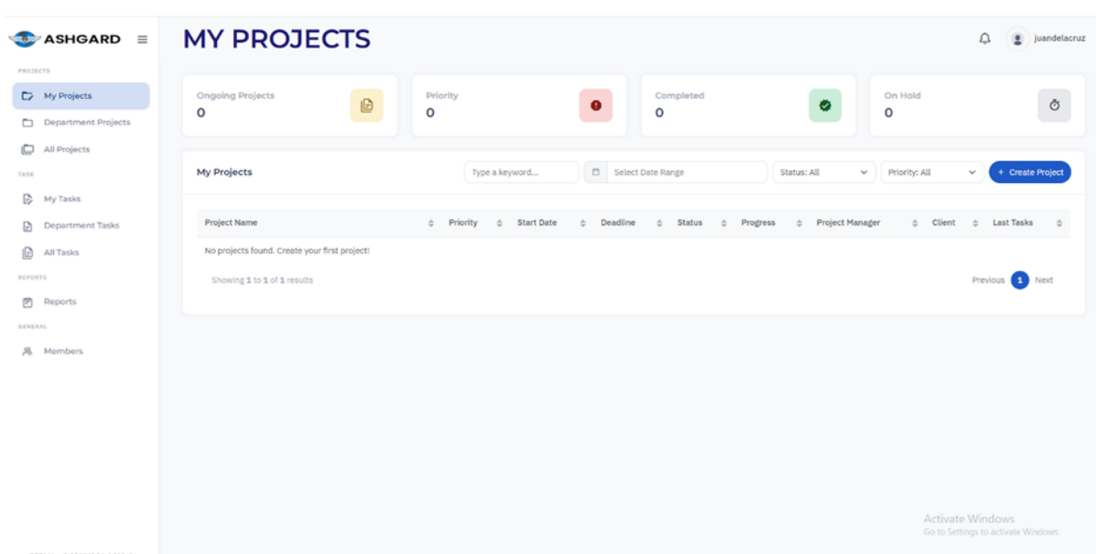
4. **Log In to Your Account**

You will then be redirected to the **login page**. Enter the **email address** and **password** you used during registration, then click the **"Login"** button to continue.



5. Access the Admin Dashboard

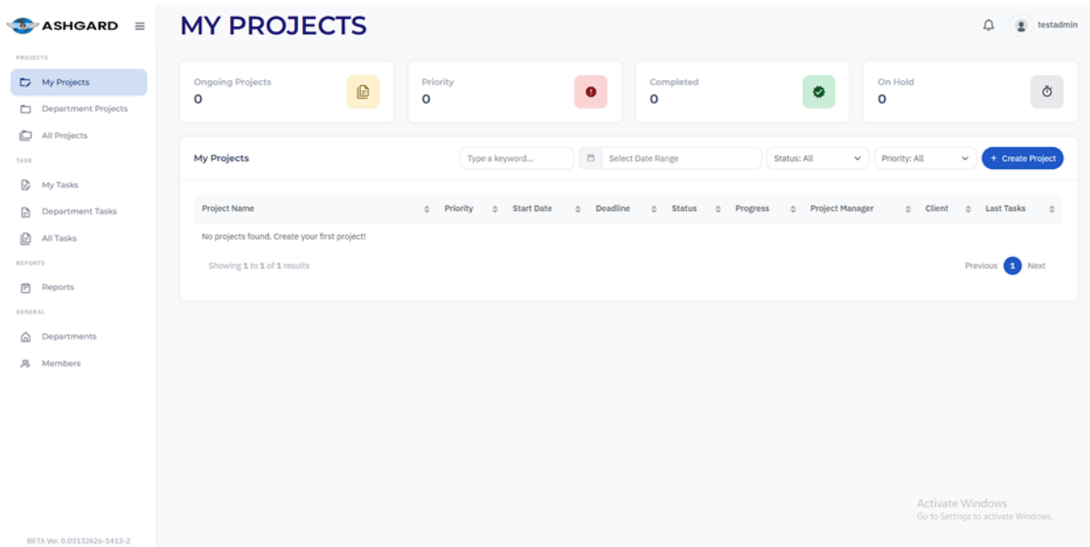
Once you log in successfully, you will be redirected to the **Ashgard To-Do website dashboard** with **admin access**.



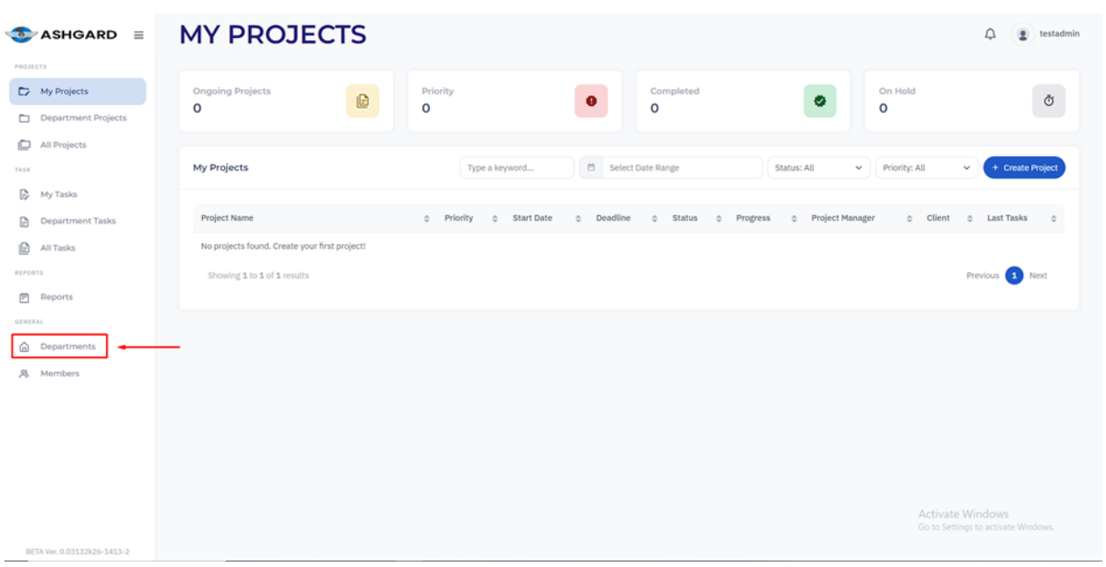
Assign members to a department

Administrator

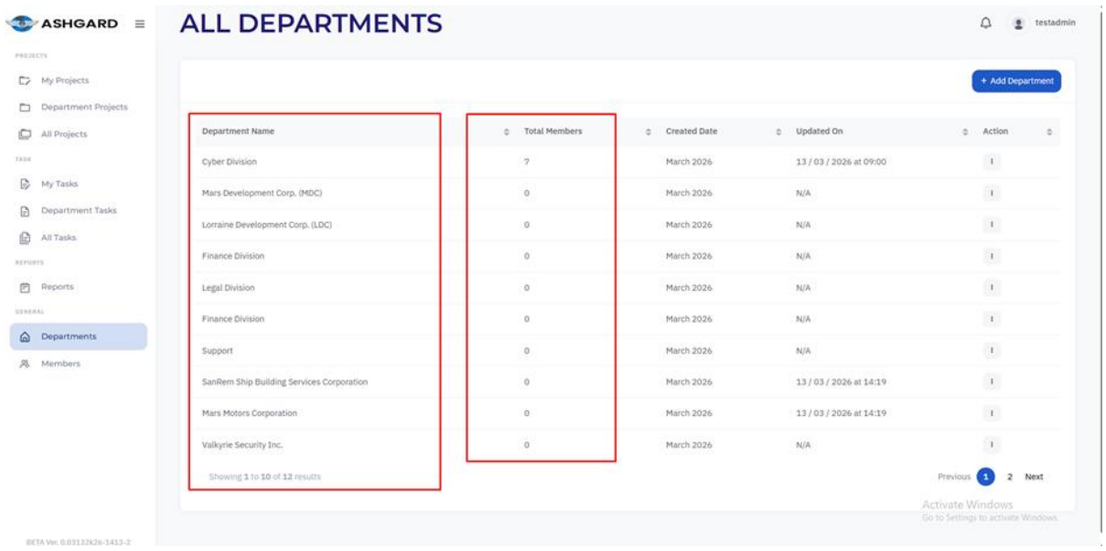
1. This is the main dashboard for the administrator.



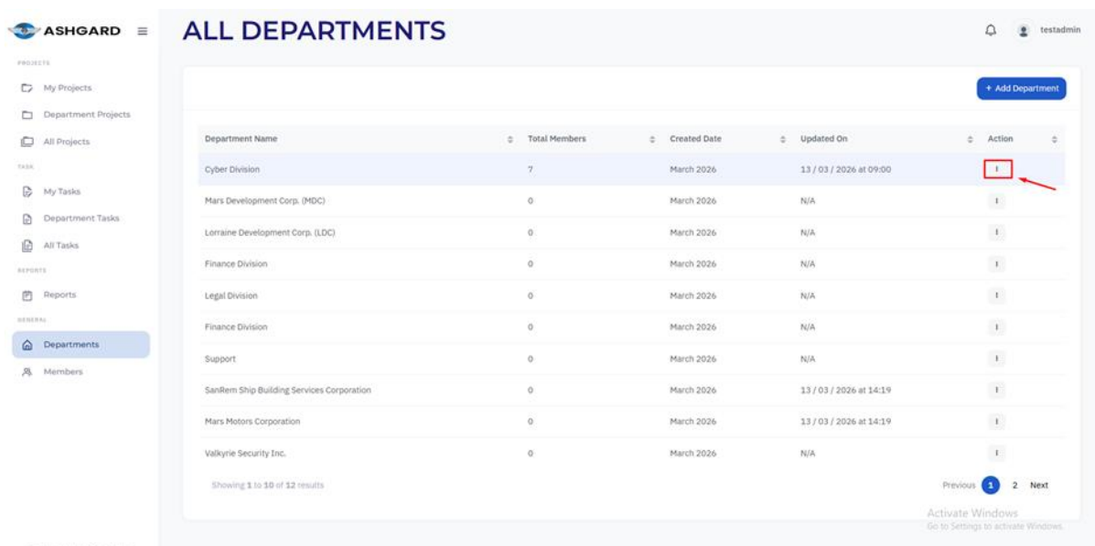
2. Click the **“Departments”** tab in the menu bar.



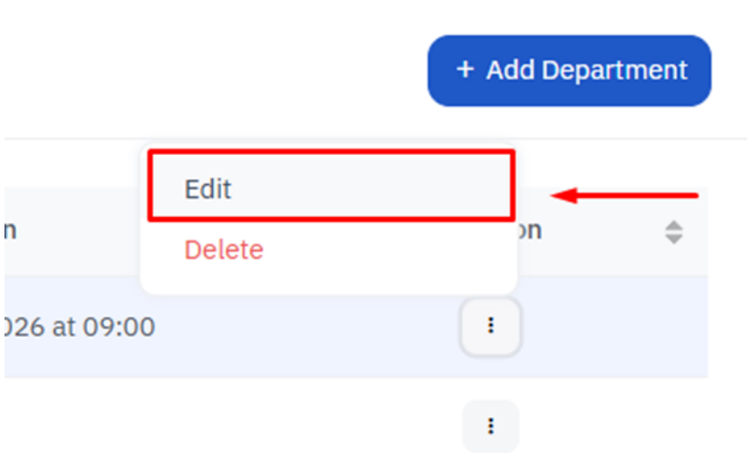
3. In the **“Departments”** tab, you will see the **Department Name** and the **Total Members** for each department.



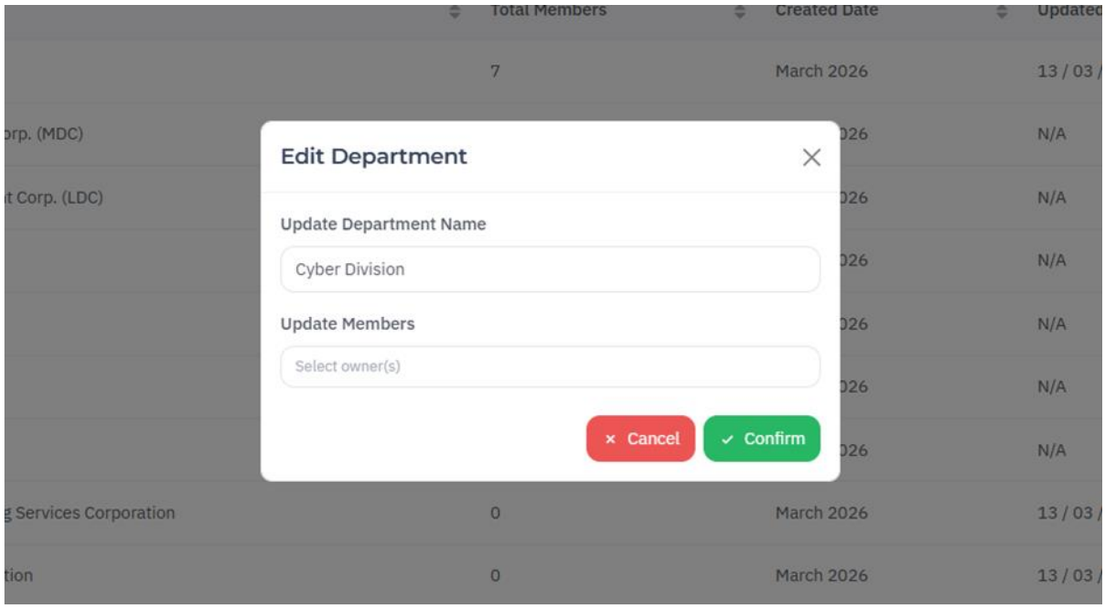
4. In the **“Action”** column, click the **three dots**,



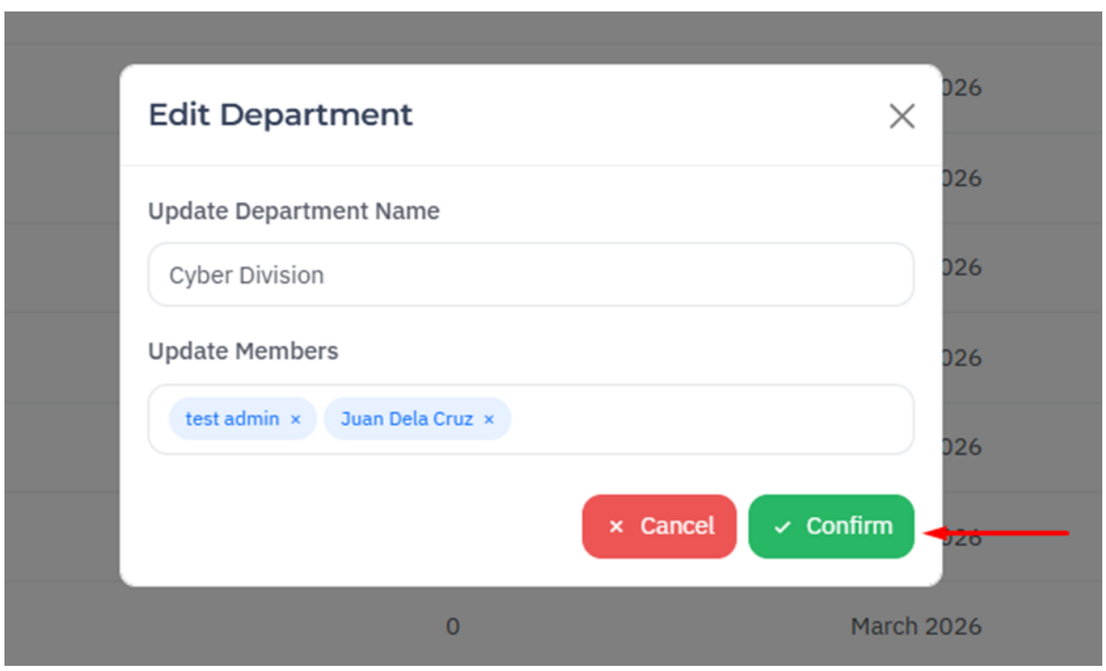
then select **“Edit”** to open the modal.



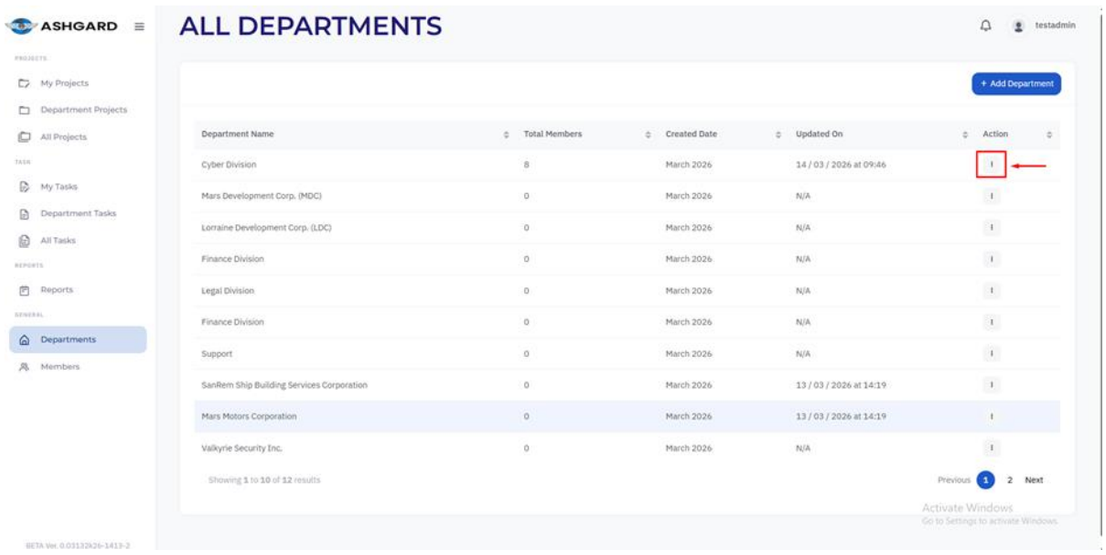
5. In the **“Update Members”** section, click the **“Select owner(s)”** field.



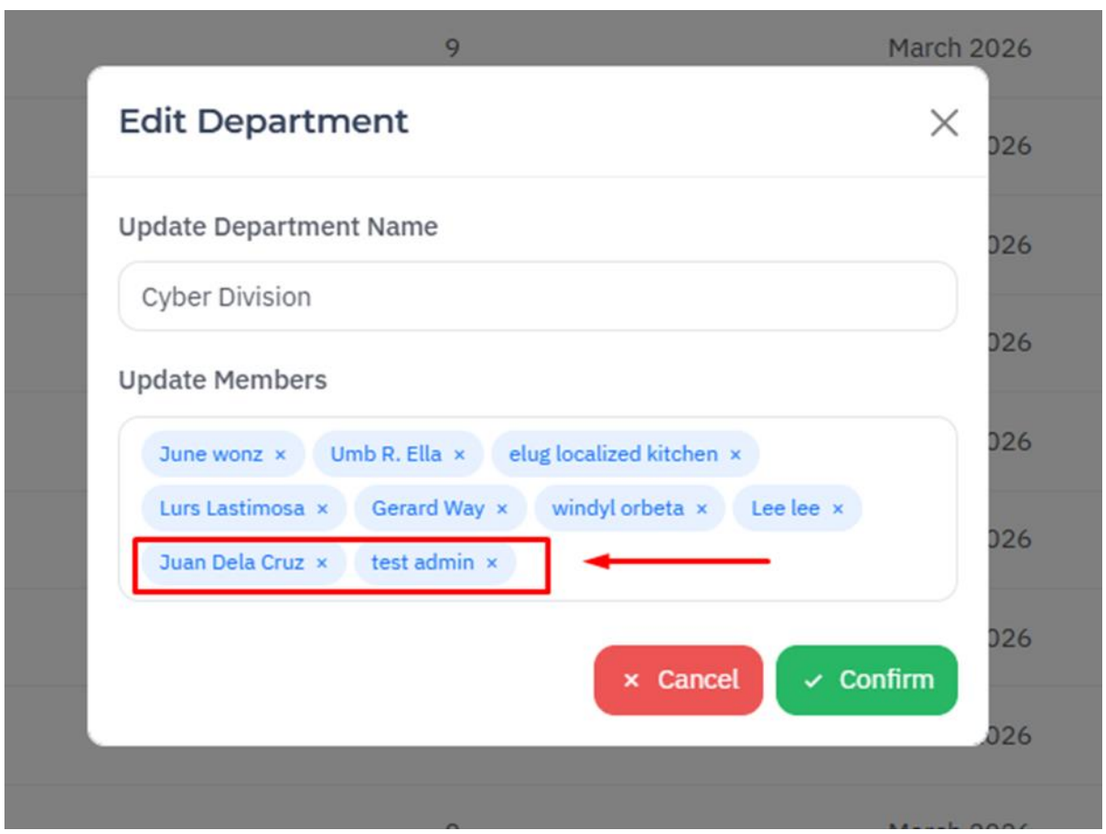
6. Click the account or user you want to add to the department, then click **Confirm** to add them.



7. To verify that the member has been added, click the **three dots** again in the **"Action"** column.



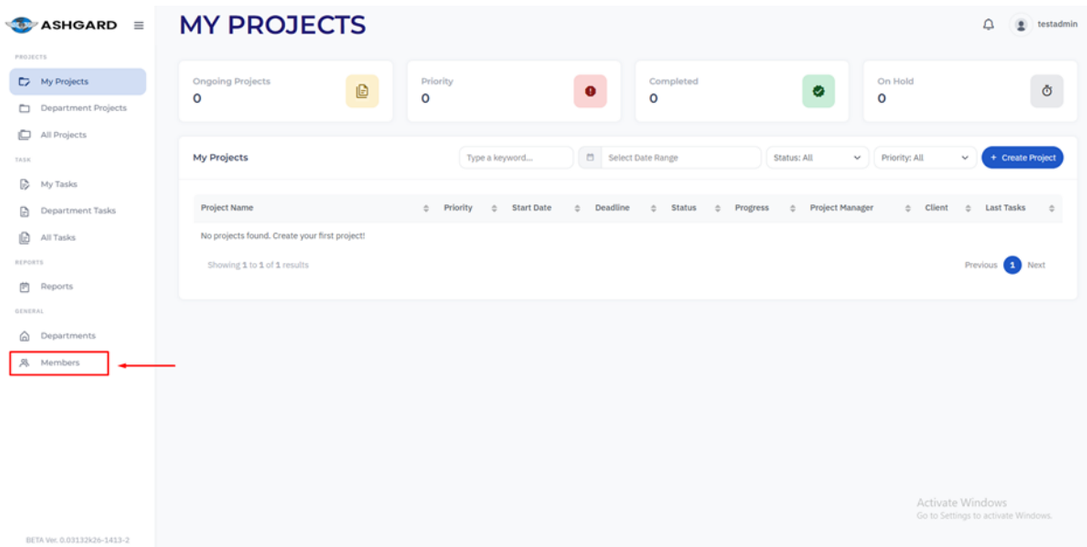
8. You will now see that the selected account or user has been added to the department.



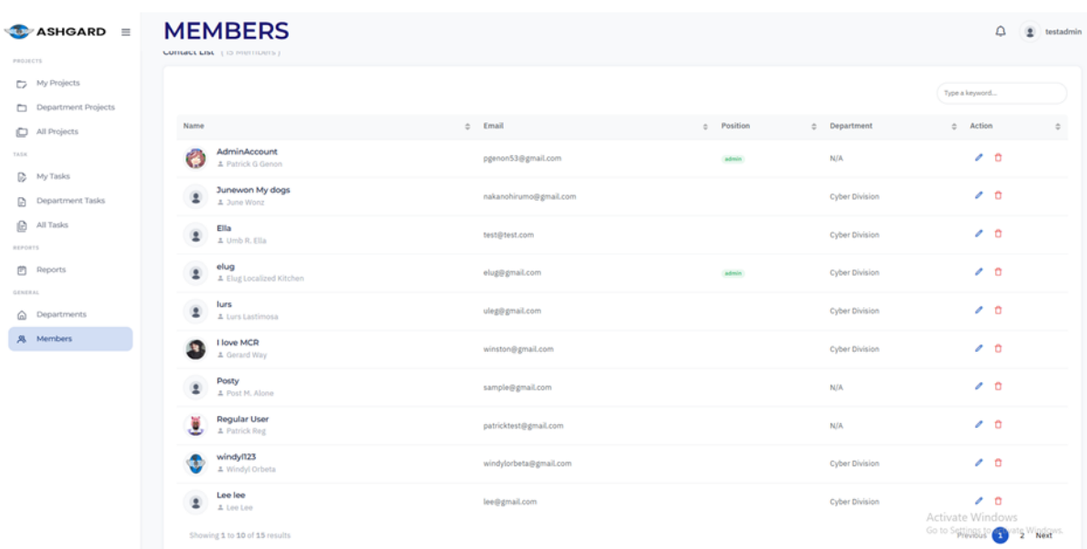
Optional:

You can also assign a **Department** to an account or user individually.

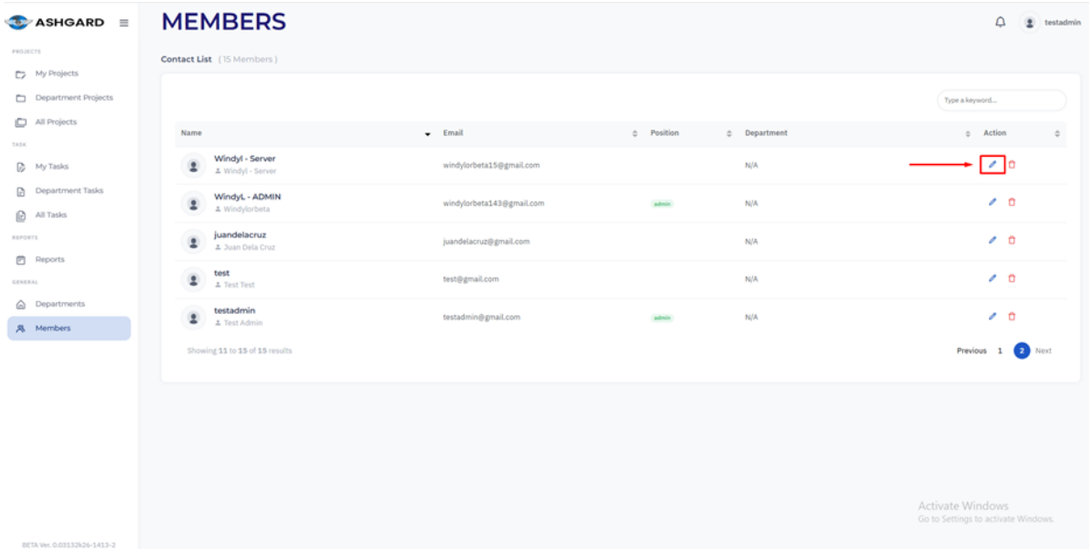
1. Click the **“Members”** tab in the menu bar.



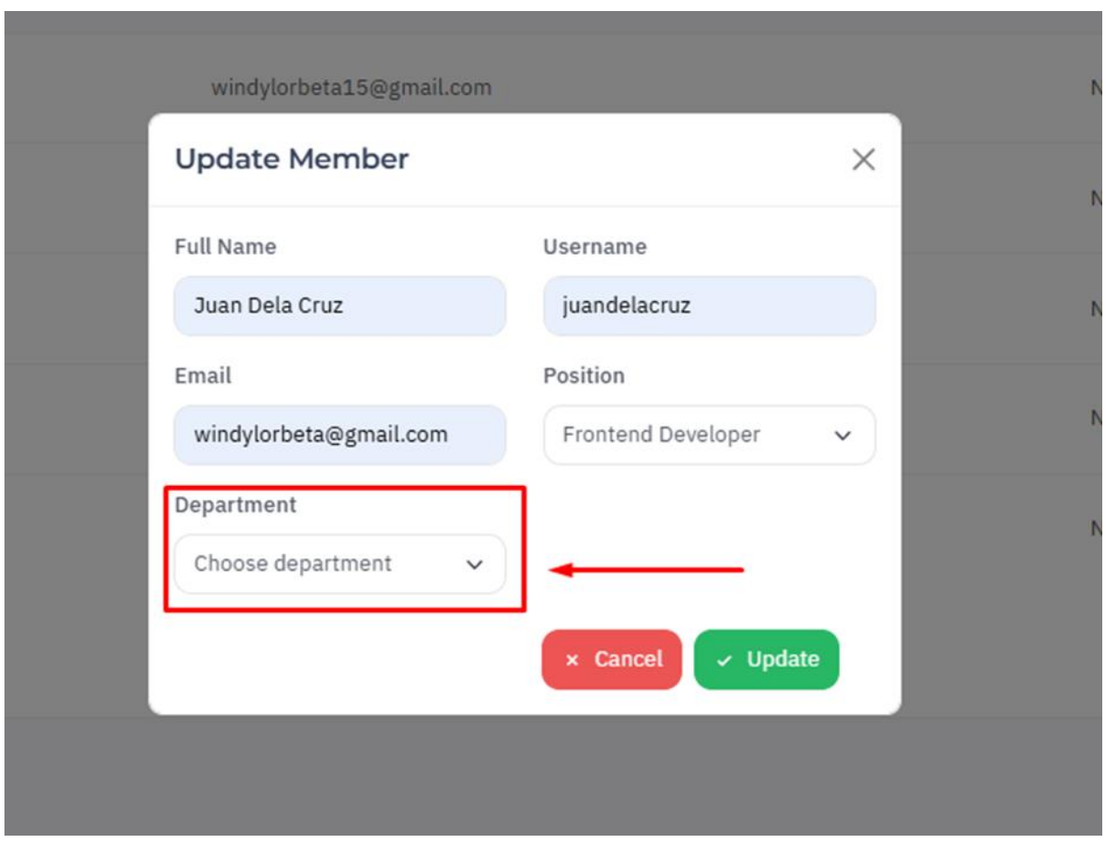
2. In the **“Members”** tab, find the account or user you want to edit.



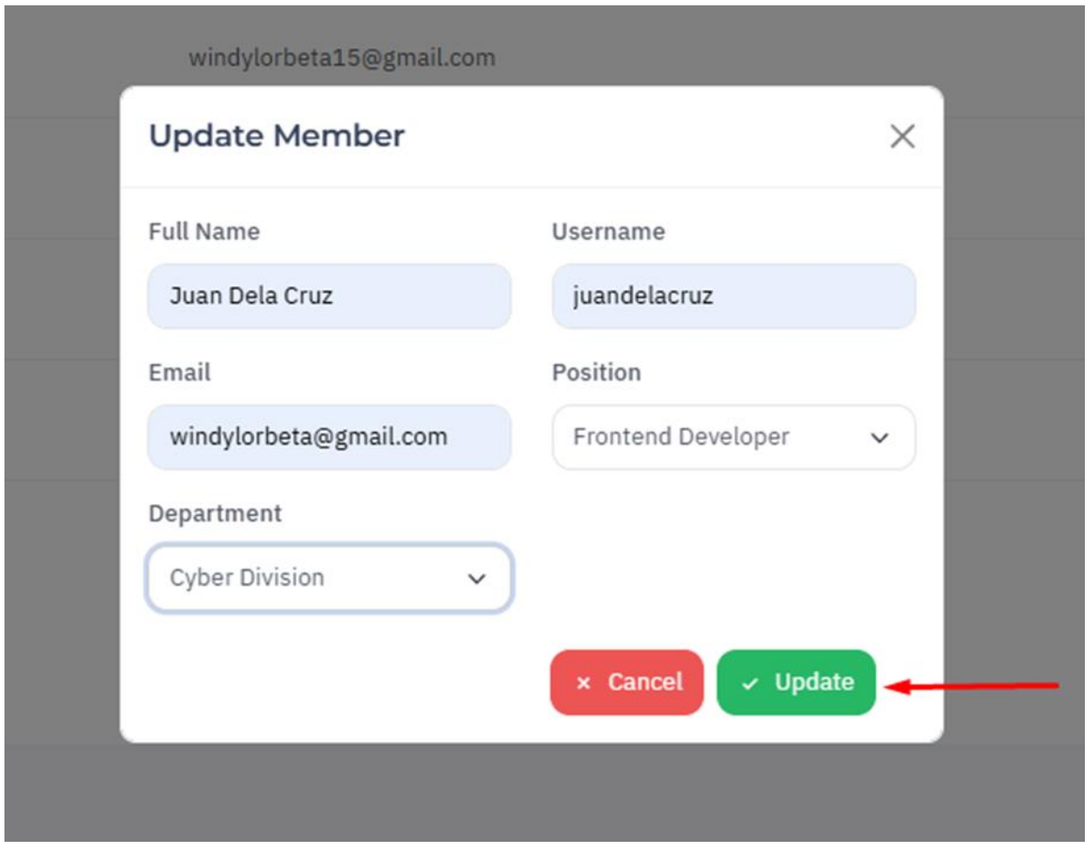
3. Click the **pencil icon** to open the edit modal.

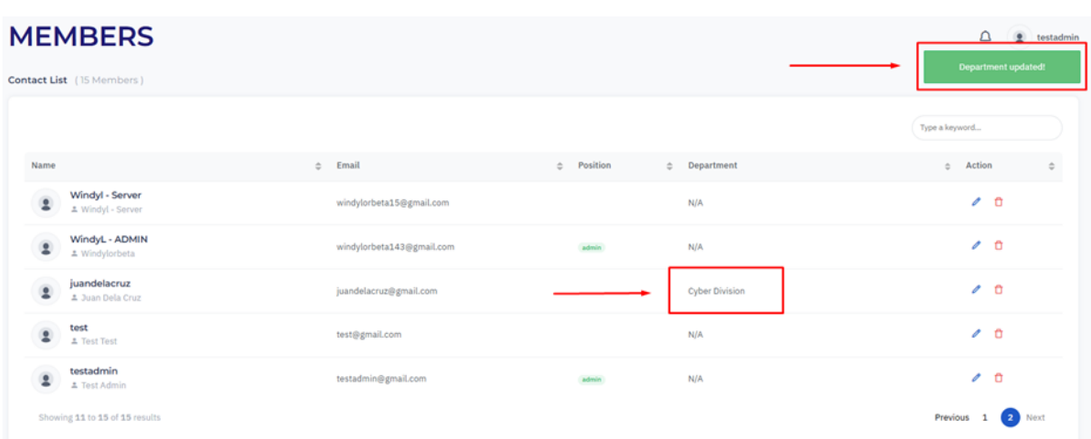


4. In the modal, go to the **"Department"** section and click the **"Choose Department"** field.



5. After selecting the department, click the **“Update”** button to apply the changes.



6. Once the update is successful, a notification will appear in the **upper-right corner** saying **“Department Updated.”**


You will also see in the **“Department”** column that the account or user has been successfully assigned to a department.
